Ex-Kaiser Dons Medals, Gala Attire To View Shackleton Film

AMERONG, Holland, March 1.—The spectacle of the former German war lord, ex-Kaiser Wilhelm in full dress uniform bristling with medals, standing at attention while an orchestra played "God Save the King" was granted a few privileged visitors to Count Bentinck's private moving picture show here last night.

At the count's invitation, the former kaiser, his moustache, now snow white, lacking somewhat its former aggressiveness, but proud and haughty of bearing as ever, went with his staff to watch an exhibition of the late Sir Ernest Shackleton's South Pole expedition.

LAWYERS FOR FATTY SCORE BIG VICTORY

Will Secure Depositions In Chicago To Bare Life of Virginia Rappe In Next Trial.

SAN FRANCISCO, March 1.—Superior Judge Harold Louderback today granted an order asked by attorneys defending Roscoe (Fatty) Arbuckle, for the appointment of a commission to take depositions of five persons in Chicago to be used in Arbuckle's defense.

Arbuckle's third trial for alleged manslaughter growing out of the death of Virginia Rappe will open March 13.

The depositions will be from three physicians and two laymen and will have to do with incidents of Miss Rappe's residence in Chicago.

OAKLAND MAN TO BE CALIFORNIA DRY DIRECTOR

(United Press Leased Wire.)
WASHINGTON, March 1.—Samuel F. Rutter of Oakland, today was appointed federal prohibition director of California, succeeding E. Forest Mitchell, who has resigned.

Rutter is now en route to California to take charge.

Mitchell's resignation, Federal Prohibition Director Haynes states today, was because of a "lack of complete sympathy and harmony" in his organization.

Attorney General Daugherty today denied that because of the prohibition dispute on the coast he had asked for the resignation of Robert McCormack, special assistant attorney general there. Daugherty said McCormack was not involved in Mitchell's resignation.

THREE ENTOMBED IN CALIF. MINE 'CAVE-IN'

SAN FRANCISCO, March 1.—A cave-in on the 1000-foot level of the Idaho-Maryland mine of the Gold Exploration company at Grass Valley today entombed three miners, according to a telephone message sent to the state industrial accident commission's offices here today. A mine rescue crew from the bureau of mines station at Berkeley has been rushed to the scene.

The message said it was believed the men were still alive.

IT TURNS TO BOOZE NEW YORK, March 1.—"Tomatoes" from West Virginia proved to be gin from New Orleans when federal agents raided a North River barge. "Cottonseed oil" was denatured alcohol.

Leader Claims Wet Campaign to Restore Wine, Beer Under Way

NEW YORK, March 1.—Thirteenth organizations and a combined drive of wine and beer.

Indicating the long is offensive of the wetting under way was cited today in a statement United Press by William Ferguson, state superintendent of the Anti-Saloon league.

He and beer promises to be the big issue in American in the congressional election, his fall.

Other indications that the offensive has been launched include:

The American Federation of Labor issued a statement favoring modification of the dry law.

Certain advocates of the soldier bonus urged paying it with taxes to be raised on sale of light wine and beer.

Rumor Murderer Confesses

EIGHTH ATTEMPT TO ROB HAWLEY STORE FAILS: TWO JAILED

Alleged to have been frustrated in carrying out what would have been the eighth burglary of the sporting goods store of A. E. Hawley, 305 North Sycamore street, two men who described themselves as Herbert Rodgers, 25, and Roy Smiley, 30, were arrested here at 4:30 a. m. today on suspicion of having been the two whom the Hawley burglar alarm had frightened away from the store four hours earlier.

Police today planned thoroughly to question the two men, whose actions and looks were said to tally with those of the pair that Officer Orin Moncrief saw running from the rear of the Hawley store.

The attempted burglary, coming a little more than two months after the daring skylight robbery in broad daylight at Hawley's when goods valued at \$500 were stolen and which has never been solved, roused the authorities here to action.

The Hawley burglary alarm, which since its installation has frustrated four other attempted robberies, sounded at the police station shortly after midnight.

Sees Two Men Running
Moncrief, who answered the call, reported that he saw two men, one tall and one short, running south on Sycamore street. He could not catch up with them.

Officers Combs and Ryan arrested Rodgers and Smiley at 4:50 a. m. at the corner of Second and French streets and lodged them in the county jail on charges of vagrancy and suspicion. The police saw the two men cross Main at Second, walking east.

Moncrief said he was too far away from the men he saw running from Hawley's store to be sure whether they were the same two he had previously seen. A man whose identity is unknown but with whom the police desire to get in touch, was standing on the corner of Fourth and Sycamore streets at the time the burglar alarm went off. He gave the descriptions that led the police to believe that Smiley and Rodgers were implicated in the attempted robbery.

Arrive In Box Car
Smiley and Rodgers said they had arrived here about 10:30 last night in a box car. They were cold, they claimed, and decided to walk to town. They gave no reason for remaining on the street until 4:30 a. m., officers said he was a laborer, lived in Kansas City and had only been in California three days. Smiley told the authorities that he was a laborer and made his home in British Columbia.

An investigation of Hawley's showed that the men who attempted the robbery broke a small hole in the window at the rear of the store but in unhooking the window latch, touched the curtain and set off the burglar alarm at the police station.

Youth Strapped In Invalid Chair Will Die On Gallows

CHICAGO, March 1.—Harvey Church, boy slayer "more dead than alive," will go to his death at 4 p. m. Friday strapped in an invalid chair.

Church, whom physicians say is a "mental suicide" has cheated the state from exacting a full death penalty for the brutal murders of Carl Ausmus and Bernard J. Daugherty, alto salesmen.

The hanging will merely be "an official ceremony" as the slayer will not know he is being put to death, according to alienists.

Decision to hang Church in the afternoon, instead of dawn, breaks a precedent.

Change in time was made for the convenience of a jury of doctors and witnesses who, according to law, must witness the execution.

Fear of the gallows and forty-one days' abstinence from food has caused Church to sink into a coma from which it has been impossible to awaken him.

He was still being forcibly fed today.

SENATE O. K.'S. YAP TREATY WITH JAPAN; JOHNSON VOTES 'NO'

WASHINGTON, Mar. 1.—The senate today approved the first of the arms conference treaties. By a vote of 67 to 22, the senate ratified the Yap treaty with Japan.

Three Republicans and nineteen Democrats voted against the treaty.

The following Republicans voted against the treaty: Borah, France and Johnson, California.

The following Democrats voted against:

Ashurst, Caraway, Culberson, Garry, Glass, Harris, Harrison, Reffin, King, McKellar, Overman, Pittman, Reed, Robinson, Sheppard, Simmons, Swanson, Walsh, Massachusetts; and Watson, Georgia.

Democrats voting for the treaty:

Broussard, Dial, Fletcher, Hitchcock, Jones, New Mexico; Kendrick, Myers, Pomerene, Ransdell, Smith, Underwood, Walsh, Montana and Williams.

Immediately after the senate ratified the Yap treaty, Republican Leader Lodge called up the four-power treaty.

The treaty, while giving Japan a mandate over the island, protects American cable and other rights there.

Ratification came in less than three weeks after Harding submitted the treaties to the senate.

The vote was not expected until tomorrow but debate lagged late today and the roll was called unexpectedly.

CITY SETS MARK IN FEBRUARY BUILDING

February closed in Santa Ana with building permit valuations for the month totalling \$455,721. This is a February record for the city. The last permit of the month was for a residence in the McFadden subdivision on South Main street, the first of its kind. J. T. Kearns, 925 French street, took out the permit and he will erect a five room residence at 1212 Orange avenue, to cost \$3500.

March started off with a bang, six permits being issued in the forenoon representing building investments of \$8350. This brings the total operations for the year to 234 permits and \$464,671.

Three residences were scheduled in today's issues. They were for: W. H. Dixon, five rooms, \$2950, at 518 South Garnsey; Emily Latimer and Nona Cross, three rooms, \$2250, at 815 West Cubbon; G. A. Bradley, five rooms, \$2750, at 427 South Garnsey.

SON OF SENATOR IS FINED AS SPEEDER?

Harry Johnson, declared by motorcycle officers to be the son of United States Senator Hiram W. Johnson, paid a fine of \$20 to Justice Cox this morning on a charge of speeding.

Johnson was arrested by Officer O. K. Carr on the El Toro boulevard, February 18, accused of going forty-five miles an hour. He gave his address as Mercer hotel, Los Angeles.

This morning Motorcycle Officer Morrison of San Diego was in court when Johnson appeared, pleaded guilty and paid his fine. Morrison said that Johnson was arrested in San Diego county going well over fifty miles an hour, but the action, at the request of the district attorney's office of San Diego county, was dismissed. Morrison said the man who appeared here was the senator's son.

COLD WAVE HITS TOKIO. HONOLULU, March 1.—Tokio today was in the grip of a severe cold wave and snowstorm, according to dispatches reaching here.

THE LESSON OF THRIFT

The important thing about the Thrift Campaign starting in the public schools today is—not that the savings banks shall receive increased deposits, not that their number of depositors shall be increased, not even that the boys and girls or older people shall accumulate reserve funds with which to meet emergencies or improve opportunities.

No, important and beneficent as these things are they are not THE important thing about THRIFT WEEK.

Of much greater importance than all these things is to teach boys and girls, especially, and older people as well, the value of money, as representing stored-up labor. The boy or girl who does not learn this in school or home or store or office or field has missed something of education and discipline that it will be extremely difficult for him or her to get in later life.

The average boy or girl does not know that every cent or dollar that is spent for his or her comfort or pleasure represents somebody's labor, somebody's self denial; and more moral and economic wrecks in life come from this lack of fundamental knowledge than from almost any other cause.

Whatever we can do then, as school teachers, bankers, newspapers or parents to teach this vitally important lesson we should do with all our might.

POLICE GRILL 6 SUSPECTS HELD IN FILM MAN DEATH CASE

LOS ANGELES, March 1.—The alleged bootlegging ring now held incommunicado at the central police station in connection with the William D. Taylor murder mystery is the same organization that supplied Roscoe (Fatty) Arbuckle with his liquor. Mrs. John Rupp told police detectives this afternoon. The woman, in an amplified statement obtained by police late today also named two leading motion picture actresses as regular purchasers of liquor and narcotics from the organization. Taylor was said to have been interested in one of the actresses named.

(United Press Leased Wire)
LOS ANGELES, March 1.—An unconfirmed report that one of two men named by Mrs. John Rupp as the slayers of William Desmond Taylor had confessed, spread like wildfire at police headquarters today.

Activities among detectives, who have been grilling the six men under arrest indicated that some important new development had occurred.

The suspects had been undergoing the "third degree" throughout the night, it was reported.

It was known that valuable information touching the murder had been obtained from one of the suspects.

Works on New Angle
Detective Sergeant Herman Cline, head of the homicide squad, was working on an angle of the case which, it was believed, will connect the statements obtained from the prisoner with some of the previous clues in the murder mystery.

These clues, which, without corroboration, led only to blank walls, had been abandoned as hopeless by the baffled investigators working on the case.

Pursuing this new angle of the investigation, Cline was in secret conference with Mabel Normand, film comedy star, who was the last friend to see Taylor alive.

Georges Romier, teacher of French, was meanwhile questioned at the district attorney's office. He was with Miss Normand the day Taylor was shot.

Quiz French Teacher
Romier told of a visit he and Miss Normand made to a jeweler's to have a French motto inscribed on a cigarette case.

William East, Walter Kirby, Harry Lynch, George Calvert, John Herky and Harry Amorheim, the six men taken in yesterday's raid, were held incommunicado at the central police station.

No officials who had been questioning them would corroborate the "confession" which persistent rumor at headquarters said had been obtained.

The six men, who have been under surveillance for some time by the Wilshire division police, were suspected of being holdup men as well as members of a bootleg and narcotic ring, detectives said.

According to the arresting officers, Mrs. Rupp, who is known also as May Lynch, fell out with Lynch and for this reason tipped off the police as to the whereabouts of the gang.

The woman's story, in which she specifically accused two of the six of killing the film director, was being carefully checked today by the district attorney's office.

Her complete statement is contained in several pages of manuscript, transcribed from shorthand notes.

Evidence against Edward F. Sands, missing secretary of Taylor who is blamed for the crime by many investigators, was greatly depleted by the death of Earl Tiffany, former chauffeur of the dead man. Tiffany died of influenza.

Shot That Kills Woman Fails to Waken Husband Asleep at Side

SAN ANTONIO, March 1.—Mrs. Bessie Marchetti was found shot to death in bed at her home here early today by police who investigated a shot they heard.

Henry Marchetti, her husband, was asleep beside his wife when officers entered the room and had not been awakened by the shot, the officers said.

No arrests have been made. A highpowered rifle was found in the yard.

IRISH TREATY FOES LOSE IN BITTER CLASH

De Valeraites Go Down To Defeat as Griffith and Collins Control Sinn Fein Parliament.

DUBLIN, March 1.—Two important motions were before the Dail Eireann when the Sinn Fein parliament resumed its session today. At the opening session, Eamon De Valera and his followers, lost by a sound majority on each of six divisions which they forced from the floor. The De Valeraites began their obstructionist tactics with the opening rap of the chairman's gavel, but in each instance were defeated.

Today a motion to divide Irish land recently held by the "enemy" among landless Irishmen and another to have all births, deaths and marriages registered in Gaelic only, were to be brought up by the malcontents. Griffith and Collins, leaders of the pro-treaty faction, seemed to have the situation well in hand, however.

JURORS A COUT 'MIRACLE MAN' OF SLAYING

(United Press Leased Wire)
LOS ANGELES, March 1.—"Brother Isaiah" Cudney was found not guilty of manslaughter in connection with the death of Mrs. Margaret Dunbar, a believer in faith healing, after ten minutes' deliberation, by a superior court jury here this afternoon.

Although Judge Shenk admonished spectators in court to make no scene, cheers of applause greeted the verdict exonerating the aged "miracle man."

"30" BULLETINS

Under a ruling received today by County Clerk J. M. Backs, the last day for registrations for the municipal elections in cities of the sixth class to be held April 10 is March 11 instead of March 10, as hitherto held by the county clerks of the state.

Backs received notice today from authoritative sources in San Francisco to the effect that registrations should be allowed on the thirtieth day before election. Hitherto the practice has been to close registrations on the midnight of the thirty-first day before election.

WASHINGTON, March 1.—A joint resolution extending until March 14, 1925, the time in which draft evaders or deserters during the war may be prosecuted was passed by the house today by a vote of 264 to 20. The measure is now ready for the president's signature.

WOMEN NOT ADMITTED COLUMBUS, O., March 1.—Mrs. J. O. Love demanded admission to a double electrocution here and showed credentials. "Can't be done," said Warden Thomas, "men only."

POLICE SUSPECT DOCTOR VICTIM OF POISONING

SAN FRANCISCO, March 1.—Detectives today declared they were convinced that Dr. Michael Henry Etcheverry, found dead in his office here late yesterday, was either poisoned by a murderer or met death accidentally, probably while experimenting with drugs.

They said their investigation had practically eliminated the theories that he had died from heart failure or had ended his own life.

CASH PLAN HOLDS UP ACTION

Republican Sub-Committee Seeks Way to Escape Payments

PROFITS TAX WINS SUPPORT OF SOLONS

May Issue Bonus Certificates Upon Which Veterans Can Borrow

By CARL D. GROAT
(United Press Staff Correspondent)
WASHINGTON, March 1.—Delay for two years in the cash payments of a soldier bonus was virtually decided upon today by Republican members of the house ways and means committee.

It is understood that it is planned to issue bonus certificates upon which ex-service men in time of need could obtain loans.

Sentiment in the committee is that this is the only way out of the bonus situation. Republican members of the committee today named a sub-committee "to work out some plan that will not cause a demand for large cash payments for a soldier's bonus in the next two years," according to an official announcement by Chairman Fordney.

Committee Members
On the sub-committee are: Representative Fordney, Michigan; Longworth, Ohio; Green, Iowa; Hawley, Oregon; and Treadway, Massachusetts.

Whether the delay in receiving cash would be satisfactory to the American legion chiefs, committee-men could not say. Legion leaders, however, are strongly opposed to delay in passing a bonus bill, and Hanford MacNider commander, is now on a speaking tour in behalf of prompt action.

The committee, mindful that victory bonds must be refunded in 1923, realized that in the next two years any measure to raise a bonus fund—outside a sales tax—would have a bad effect on the treasury. The sales tax, members held, could not be put over because of the opposition to it.

Would Delay Payment
The committee then decided to try for a bonus bill but delay the drain on the treasury.

The bill would be so arranged, however, that the loans would not come direct from the treasury.

Whether the sub-committee will actually find the idea feasible is still questionable.

Hundreds of American legion posts throughout the country are planning now to let the bonus take its course in the house provided reasonably early action is obtained. But when the case comes to the senate these posts expect to flood that body with messages demanding quick action.

The house ways and means committee has reached the stage where there is considerable bitterness over publicity. The fact that the votes within the committee have become known has roused some of the committee-men with the result that the session yesterday afternoon became almost a riot.

Favor Profits Tax
Despite the pledge of secrecy, however, it became known that the committee test votes showed a tendency favoring early action while there was considerable sentiment for providing a definite financing plan. The excess profits tax is gathering considerable support in the house.

(Continued on Page Two.)

Too Much Talk Lands Wandering Pair In Jail, Officer Reports

"They talked themselves into jail."

That was the way Santa Ana officers today told of how they lodged Nick Constantino, 20, and Lester Cole, 20, in the county bastille on vagrancy and suspicion charges yesterday.

It was a diamond that got the pair started and it was too much talk that got them into trouble, police say.

According to the records, Constantino and Cole approached a well known automobile man here yesterday on the street and offered to sell him a diamond for \$10.

After considerable debate, Constantino is said to have offered to sell the ring for \$8 and finally for \$6.

"It didn't cost me anything," Constantino is alleged to have remarked, "I stole it from a woman in San Francisco."

The automobile man reported the affair to the police and officer Bob Elliott arrested the men soon afterward. At the police station, Constantino and Cole are said to have told conflicting stories regarding the manner in which they came into possession of the diamond.

Police claim that Constantino said he stole it from a woman in San Francisco while Cole told them he purchased it for \$10 at a Geary street store there. Constantino said his mother was sick in San Diego and he wanted to sell the diamond to get enough money to go to see her.

BROWNRIDGE IS NAMED C. OF C. PRESIDENT

Alex Brownridge, cashier of the Farmers and Merchants Savings bank, today was elected president of the Santa Ana Chapter of Commerce, following organization by the board of directors yesterday afternoon.

Today's session of the directors was brief, plans for the year not being discussed. Other officers elected were W. H. Spurgeon Jr., first vice president; Dr. P. R. Reynolds, second vice president; J. C. Metzgar, secretary; L. G. Swales, treasurer; C. D. Swanner, attorney; Charles Spicer and E. D. Yost, representatives to the Associated Chambers of Commerce.

With the chamber now officiating as an incorporated body, the annual election of a full board of directors passes into history. Hereafter three members will retire each year, following the election of their successors. Lots were drawn this morning by the new board members for the one, two and three-year terms, three men for each period.

For Varying Terms
One-year terms fell to Alex Brownridge, Charles D. Swanner, Dr. P. R. Reynolds; two years to L. G. Swales, E. D. Yost, H. E. Wahlberg, and three years to C. F. Heil, Charles Spicer and W. H. Spurgeon Jr.

Charles F. Smith, retiring president, recounted some of the accomplishments of the old board in the past year, referring particularly to the development of a municipal camping park on Santiago creek and the provision of street signs within the ornamental lighting district.

The chamber has done considerable constructive work within the past year, Smith told the new board members. He said that constructive work is essential to the future development of the city, and that it was the very best type of work in which the chamber could engage for the benefit of the whole community.

10,000 Phone Calls
In his annual report Secretary Metzgar pointed out the fact that more than 15,000 persons called at the office during the year, and that the number of telephone calls was estimated at 10,000. The membership, which is now 1000, is the largest in the history of the organization, according to the report. During the year 116 new members were added, and the chamber has a good business standing for service and community building, the report says. More than 100,000 pieces of literature were mailed in the twelve months and some 75,000 letters of inquiry from all parts of the world were answered, it was shown by the report.

TWO BANKS HARD HIT BY EPIDEMIC OF FLU

The First National bank and Orange County Trust and Savings bank today were feeling the effects of the influenza epidemic. At the former institution six members of the force are out and the latter five.

Those absent from the First National today were Claude Sleeper, J. L. Bascom, Misses Frances Potts, Olive Bennett, Edna Gammell and Anna Ford. J. R. George is assisting as teller.

At the Orange County Trust and Savings bank those missing were E. B. Sprague, cashier; U. D. Rhodes, trust officer; G. E. Lindley, Miss Thurza Marrs and Mrs. Pauline Cranston, the latter being a substitute for another member of the force.

Miss Jessie Dundon was the only absentee at the California National bank. Forces at the Farmers and Merchants Savings bank and the American National were intact.

Seven employees of the P. R. and V. Products company were detained at home today, it was reported.

S. A. MAN TO ANSWER CHARGE OF CONTEMPT

Charles C. Frost is to be in court next Friday to answer to a charge of contempt of court. He was ordered, recently, in connection with proceedings brought against him by his wife, Mrs. Beulah Frost, to stay away from the rooming-house at 312½ West Fourth street, which Mrs. Frost conducts. According to affidavits filed in the county clerk's office, Frost returned to the rooming-house, Friday morning at 10 o'clock he is to have an opportunity to explain his alleged failure to obey the court's order.

TRANSFER OF EDISON PROPERTY IN L. A. IS SATISFACTORY, CLAIM

W. L. Deimling, district manager of the Southern California Edison company, today issued a statement here quoting John B. Miller, president of the company, relative to what effect, if any, the proposed transfer of the company's property within the city limits of Los Angeles to the city of Los Angeles would have on the company's business.

Miller said: "The effect will be eminently satisfactory to the company. It will have no effect whatever on the company's business or standing, except that the company, by reason of the receipt of upward of \$11,000,000 through the transfer, will be able to speed up its program of water power development just that much faster and on just that much broader a basis."

"The volume of the company's business affected by the transfer is only ten per cent of its total business and will not be affected by the transaction as under the operating agreement the business has been transacted for the past five years substantially the same as it would have been if the transfer had taken place at that time. The only difference will be that the city will take over the actual handling of the retail accounts within the city limits, and the company will continue to supply the city's surplus power requirements on a wholesale basis."

COUNTY PRINCIPALS FAVOR EXAMINATIONS GIVEN BY TEACHERS

Commendation of the present system of conducting examination of grammar grade students was given at the meeting of the Orange County Grammar School Principals' association, meeting at El Modena last night.

The vote of the principals was in favor of the system under which tests are given on questions prepared by the teachers instead of on questions prepared by the county board of education. The county board up to this year prepared the questions.

A committee of principals is to be appointed by the association president, Miss Lydia Killifer, of Orange, to investigate what is known as a standard test system for children.

DEFENDANT IN OIL LAND ROW GRILLED

J. L. Hecathorn, of Whittier, whose son-in-law, A. W. Barry, is suing him for a half-interest in Huntington Beach oil property that may be worth \$100,000, was under critical cross-examination today at the hands of Attorney Clyde Shoemaker of Los Angeles, representing Barry.

Hecathorn testified that he had acquired whatever interest Barry had in lots bought at an auction sale by the Huntington Beach company several months before oil was struck in the beach field.

Letters were introduced into Superior Judge West's court in which Hecathorn says to his daughter that her husband had been "bragging around as usual," and in which Hecathorn declares that while not recognizing any of Barry's claims as well founded, he wants to deposit in a bank for Mrs. Barry's use one-third of the income from the oil property. He expressed a desire to make life easy for his daughter, but he was not much concerned about making things easy for his son-in-law.

SUPERVISORS ISSUE BONDS IN PAYMENT FOR ROAD DISTRICT

The final action in carrying out the improvement work for what is known as Road Improvement district No. 7, a section including all or part of the Golden State tract east of Anaheim, was taken by the board of supervisors yesterday in authorizing the issuance of bonds to the contractor, Fairchild, Gilmore, Wilton company, in payment for \$55,000 of the \$75,000 that the improvement cost. The county furnished \$20,000 worth of material.

The district has had three miles of pavement laid. A sub-base of four inches of gravel was laid, with a five-inch asphalt concrete pavement placed on top.

Ten-year bonds are to be turned over to the contractor, to be paid off by taxation year by year.

LOUIS P. BAUMAN DIES SUDDENLY AT LAUNDRY

Louis P. Bauman, assistant secretary and assistant manager of the Santa Ana Steam Laundry company, died about 9 o'clock last night at the plant after having been taken suddenly ill a few minutes before.

Mr. Bauman went to the laundry to do some work last night. About 9 o'clock Eugene E. Eckley, son of L. E. Eckley, foreman of the plant, passed by and stopped to talk with Mr. Bauman for a few minutes. Eckley is employed at the laundry.

Complaining of illness, Mr. Bauman said he thought he would go upstairs to the rest rooms and lie down until he felt better.

Seeing that Mr. Bauman was seriously ill, Eckley gave him a drink of water and then called a physician but death came before his arrival.

Funeral services will be held at 2 p. m. Friday, March 3, at the Smith and Thibault parlors.

The Rev. Perry F. Schrock, pastor of the First Congregational church will officiate.

Interment will be made at the Fairhaven cemetery, under the auspices of the Santa Ana Masonic lodge of which Mr. Bauman was a member.

Mr. Bauman is survived by his wife, Mrs. Sarah Maude Bauman and by a daughter, Evelyn Bauman.

Coroner C. D. Brown will hold an inquest tomorrow morning.

SANTA ANA CALLED WORLD GARDEN SPOT

"Santa Ana is the garden spot of the world."

That was the declaration today of Lloyd B. Babbitt, manager of the Crystal Cleaning company, who has just returned from a month's trip through the middle and northwest.

"I made my trip pretty thorough," Babbitt said, "but I never saw anything that could even be compared to Santa Ana or to Orange county in respect to weather, business, financial conditions or anything else."

Babbitt went to Chicago to attend the convention of the National Association of Cleaners and Dyers which was attended by more than 1000 men connected with the industry from all over the United States. Discussion was held relative to the betterment of the conditions surrounding the industry, Babbitt stated.

"After the convention I visited Kansas City and Omaha," Babbitt said. "From there I went to Montana, Seattle, Portland and home."

"Business conditions are far from as good as they are in California and the same holds true with regard to finances. Business seems to be picking up, however, after its slump following the close of the war."

"The weather in Chicago was ideal while I was there but I encountered a thermometer of twenty below zero in Montana."

"I never fully appreciated the true worth of this city of ours until I made this trip. Santa Ana takes off all prizes."

CLEAN VAUDEVILLE FAVORED BY ALBEE

Some weeks ago The Register published a story on "clean vaudeville," together with an interview with Noodles Fagan, a vaudeville star, who is making a cross-country fight for a wholesome stage, while touring the Pantages circuit. Fagan was appearing at the Yost theater as the star of the Melkijohn and Dunn vaudeville road show at the time, through the courtesy of Alexander Pantages, head of the circuit which bears his name.

E. D. Yost is ever alert to let the world know Santa Ana is on the map theatrically, as well as being the seat of the biggest little county on earth. He forwarded the clipping, and a letter setting forth his own views on "clean vaudeville" to E. F. Albee, "father" of vaudeville in the United States. Albee, who is president of the Keith circuit and prominent identified with the National Vaudeville Artists, Inc., and the Vaudeville Managers' Protective association, wrote to Yost, at once, the letter reaching here today, as follows:

New York, February 20th, 1922.
My dear Yost:

Yours of recent date, also newspaper clipping, received. I am pleased to note that the artists and managers alike are taking up the question of clean vaudeville.

If the managers are going to expend millions of dollars in building vaudeville theaters, making a very large outlay back of the stage to see that the artists are furnished with every comfort in the way of dressing rooms, etc., and if the managers are going to support a club-house in New York through their co-operation in raising large sums of money for insurance and to look after the charitable end of the vaudeville business, surely it is up to the artists to do some entertainment.

It is very gratifying to find a theater as far away from the base of supply as Santa Ana, carrying out the principles of the N. V. A. and the V. M. P. A. and, in the name of these two organizations, I want to thank you for your splendid co-operation. Distance does not seem to make any difference in the work we have on hand. From the farthest points, North, South, East and West and Canada, the managers of vaudeville houses have embraced the spirit of co-operation. Great reforms can only be carried out by such support, and the work of a few men would quickly deteriorate and be forgotten if support did not come from the rank and file as well as the large interests in our business.

Your letter is worth reading and publishing, particularly on this question of cleanliness.

Sincerely yours,

E. F. ALBEE

DESIRES TO COMPLETE PAYMENTS ON CAR NOW ON SOIL OF MEXICO

A Chevrolet automobile belonging to Charles McCausland is evidently on the other side of the border. At least, a letter from Francisco Garcia of Mexicali indicates its presence on Mexican territory. The car was sold on a contract by McCausland to Concepcion Cuevas Castellanos last October, and the said C. C. C. left this neck of the woods in a hurry, taking the machine with him. A warrant is out for Concepcion, Etc.

Garcia, unknown in the case here, writes asking how much is due on the car. Evidently he is willing to pay the amount, \$130, or something, so that he can safely run the machine on U. S. soil.

HOOVER TO ATTEND COLO. RIVER PARLEY

WASHINGTON, March 1.—Secretary Herbert Hoover today announced his intention of attending the Colorado river conference at Phoenix, Ariz., March 15 and 16.

If that conference is reasonably successful in bringing warring factions together the secretary will call another conference at Denver, which is the home of Delph Carpenter, the chief opponent of the government control of the river.

ROOSEVELT ATTACKS PACIFIST FACTIONS

WASHINGTON, March 1.—"Soft headed pacifists" are endangering the relationship established by the navy treaty negotiated at the conference, Assistant Secretary of the Navy Roosevelt today told the seventh annual convention of the national rivers and harbors congress here today.

Roosevelt adjured the country to stand steadfast against the efforts of pacifists, who, he said, during the next twelve months, will make every effort to destroy America's place in naval arrangement.

LETTERS OF ADMINISTRATION

Brothers, sisters, nephews and nieces of Thomas Anderson, who died January 28, are to receive shares of the estate left by Anderson. The estate includes lot 22, block 415, Main street section, Huntington Beach. J. L. Hansen of Huntington Beach is attorney for the petitioner.

BONUS PLAN FACING 2-YEAR DELAY, FEAR

(Continued from Page One)

and Chairman Fordney is understood to have made that clear to President Harding.

Within the American legion there is also a feeling that such a tax would be proper for it would "hit those who made money out of the war."

Meanwhile, a new bonus proposal of Representative Fish, New York, to restrict cash payments to recipients of vocational training and disabled and unemployed veterans was partially commented by President Harding as worthy of careful consideration by congress.

"The president," Fish said, "hopes congress will not be swept off its feet on the adjusted compensation measure. Although he will not suggest any amendment, the president believes in restriction of the cash feature."

GIRLS GUARD GATES TO HONEYMOON NOOK

SHUFNAL, England, March 1.—Princess Mary, now Viscountess Lascelles, and her husband today enjoyed the quiet of a Shropshire honeymoon far from the cheering, excited throngs.

Girl guides guarded the gates of Lord Bradford's magnificent estate, Weston Park, which has been turned over to the couple for the first part of their honeymoon.

Head of Lettuce, Thousand Island Dressing
Rice Custard Pudding Vanilla Sauce
Vanilla Ice Cream and Cake
Tea Coffee Milk

ST. ANN'S INN
Just around the corner on Broadway

WANTS TO MAKE PRISON TRIP SANS GUARD

May a prisoner be allowed to "take himself" to state prison, without a guard?

This question confronted the authorities here today in connection with the case of Ray Stillings, alleged fur bandit, who must soon face the court on a charge of complicity in a recent holdup of three Los Angeles fur salesmen on Lyon street.

Stillings admits that the only mark he ever made was a black mark, according to City Marshal Sam Jernigan. The prisoner also realizes that only a miracle can save him from prison. In order to show that there is still a spark of honesty left in him, he desires, after he is sentenced, to be allowed to go to prison unaccompanied by a guard.

Stillings would have no objection if the authorities caused some man who is unknown to him to "shadow" him on the trip, to see that he carries out his agreement.

The prisoner's unique offer was made in connection with an alleged confession, made at the office of the district attorney, wherein he admitted taking part in the recent robbery of the fur salesmen here. Stillings also confessed, Jernigan said, to robbing the Smart and Final company, wholesale grocers here, of sugar, tobacco and other goods said to total \$800.

His alleged companion in the grocery robbery, Fred Williams, is now free on bail.

\$15,000 FIRE HITS NAVY MOTOR LAUNCH

SAN DIEGO, March 1.—A navy motor launch, moored alongside the United States Ship Aroostook, airship tender, burned to the water's edge here today. Four streams of water played on the launch to prevent the Aroostook's catching fire. The fire burned over an hour with a loss of \$15,000.

FIRE RAZES PUEBLO, COLO. OPERA HOUSE

PUEBLO, Colo., March 1.—Fire of unknown origin, which destroyed the Grand Opera house building, one of the largest business blocks in the city, was brought under control early today. The loss will exceed \$250,000, it was estimated. Firemen were handicapped by below zero weather.

ACTION OVER AUTOMOBILE.

Action for possession of an automobile or for \$1,000 was brought today by the Pacific Finance corporation of Los Angeles against J. E. Beakey. The complaint alleges that Beakey bought an automobile from the Taft Motor company, of Taft, agreeing on a contract to pay \$215.50 for it.

Cutlery sharpened. Hawley's.

An Open Letter to C. D. Overshiner, Postmaster

C. D. Overshiner,
Postmaster

Dear Mr. Overshiner:

The other day a man in Santa Ana said to me, "Stone, we've got the finest Postmaster in the country. I'll make you a wager that if a letter came in to this post office addressed to Franklyn Stone, 'Newmark's' Coffee, it would be delivered with your morning cup."

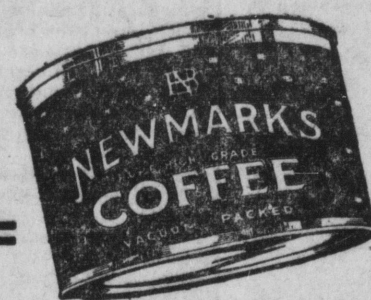

Well, Mr. Overshiner, I didn't take the bet. First because I believe his statement about Santa Ana's Postmaster, second because so many people know what an enthusiast I am about "Newmark's" Coffee that it would not be a fair test for your efficiency. You would have that letter delivered without half trying.

Some people express curiosity as to why I am so enthusiastic about "Newmark's" Coffee. But then, unfortunately, there are some people who have never tried "Newmark's." Those who have, share my enthusiasm.

Might I suggest that you, yourself, try "Newmark's" in case you have not already done so? Then I believe you will know why I talk about it so much. Mrs. Stone says I mutter "Newmark's" in my sleep. But then I think that is an exaggeration.

Sincerely yours,

Franklyn Stone

P. O. RECEIPTS HERE SHOW MARKED GAIN

With reports for February completed, the records of the local post office show an increase of \$1,657.41 for the first two months of 1922 over 1921, according to a statement issued today by Postmaster J. D. Over-shiner.

In 1921 the total for the first two months was \$12,908.21. For January and February of this year the total was \$14,565.62. This increase is wholly apart from the holiday rush which ended about January 1, and represents, according to the postal authorities, the growth of the city population and business activity.

RIO BRAVO OIL WELL PROVES UP NEW AREA

(Special to The Register.)
HUNTINGTON BEACH, March 1.—Residents of this city today were concerned in the news of the arrival of the Rio Bravo oil well at the northeast corner of Garfield street and Huntington avenue. Not only does it add 1500 feet east and north to the present productive field, but it brings returns to many local investors. About 1800 acres which had been declared barren, are proven by the new well, which is now flowing 300 barrels a day.

Included among the local folk who are benefited by the well are F. McElfresh, H. Larter, Dr. S. E. Wil-

MAKE PREPARATIONS FOR TRUSTEE VOTING

Today was the last day for posting notices by school district clerks for the annual elections to be held in all of the school districts of Orange county on March 31.

"In every district, except Santa Ana," said School Superintendent R. P. Mitchell, "one trustee is to be elected March 31. Santa Ana, being a city of the fifth class, elects its school board every four years."

Polls must be open from 8 a. m. to 6 p. m. on March 31 in districts where the average school attendance is 400 or more, and in other districts for not less than four hours, the time for the polls to be open in a district to be designated by the school board.

Mitchell is completing arrangements for giving legal notice of the elections to be held March 31 upon the organization of the Santa Ana junior college district and the organization of the Fullerton junior college district.

BOOST BREAD PRICE
REDDING, Cal., March 1.—Redding bakers today advanced the price of bread one cent a loaf on account of the rising prices of breadstuffs.

son, John Siven, C. A. Paul and Roy Le Row. T. D. McKay of Hollywood, a former resident of Huntington Beach, is also interested in the well. Five new wells have been brought in since Tuesday.

BANK CLEARINGS
San Diego: \$511,225.14.

Portland: \$5,901,611.27.
Seattle: \$6,115,815.00.
Sacramento: \$1,245,484.35.

Market News

United Press Leased Wire

WALL ST. JOURNAL FINANCIAL REVIEW

NEW YORK, March 1.—Traders used the announcement that Republican leaders have agreed upon a soldier's bonus plan as an excuse to raid the market on the New York stock exchange today. But the selling of the character did not cause any liquidation of consequence and there was a good market for most of the stocks on the reaction.

First messenger reports on the plan as agreed upon indicated it would be of a character not designated to call for any immediate cash outlay. In other words the insurance feature for the veterans of the world war would be the basis off the bonus. It was made plain that the plan does not call for any extra taxes and does not mean the using of the interest of the foreign debt, but when group is looking for some excuse to sell stocks it will seize upon most anything.

Rails were firm throughout the session, but the trading was mainly in the industrials and oils. The real constructive feature of the day's close was the annual report of the Lima Locomotive company, showing earnings better than \$21.50 a share for the common stock, or more than three times its current dividend. This had a steady effect on the whole equipment group in the late trading.

Closing prices included:
U. S. Steel, 94, off 5-8; Crucible, 56-1-8, up 1-8; Bethlehem, "B", 63, off 3-4; Gulf States, 70 1-4, up 3-4; Baldwin, 106 1-8, off 5-8; Lima Locomotive, 86 1-2, up 1-2; Mexican Petroleum, 125 1-2, up 3-4; Texas company, 45 5-8, off 1-2; Chandler, 71 1-8, off 1-8; Studebaker, 99 5-8, off 1-4; U. S. Rubber, 57 3-4, up 7-8; American Sugar, 69; Northern Pacific, 73 3-8, off 5-8; Reading, 74, off 3-4; Missouri Pacific, 32 1-2, off 3-8; Canadian Pacific, 136, up 1-8; Union Pacific, 130 1-2, off 1-2; C. & N. W., 68; C. M. & St. P., 23; Columbia Gas, 77, up 1-8.

SAN FRANCISCO MARKETS
SAN FRANCISCO, March 1.—With arrival of large shipments of onions from Australia and more due later in the month, the onion market appeared much easier today.

Lettuce and tomatoes were also easier. Ten packages of asparagus received today were sold from 50 to 75 cents a pound.

One car of oranges contained some fruit badly affected by frost, was condemned by the board of health. It was reported.

SUPPLIES LIBERAL: Apples, grapes, fruit, oranges, bananas, lemons, potatoes, sweets, tomatoes, cucumbers, mushrooms, rhubarb, peppers, eggplant, lettuce.

SUPPLIES LIGHT: Pineapples, good celery, peas, beans, sprouts.

CITRUS MARKET
NEW YORK, March 1.—Eleven cars oranges, three lemons sold. Orange market, 15¢20¢ lower; averages ranged from \$5.62 to \$7.47. Highest price paid for forty-four boxes Blueglobe, \$3.00.

Weather: Partly cloudy 8 a. m. temperature, 18.

CHICAGO BOARD OF TRADE
CHICAGO, March 1.—Grain prices were lower on the Chicago Board of Trade today. More snow fell in the Southwest and winter wheat prospects were improved. Foreign wheat quotations were lower. Northwest receipts were moderate. Provisions were lower.

THE CHEERFUL CHERUB

I saw a Russian lady dance,
Feather-light and unconfined—
We both were breathless when she stopped
For I danced in my mind.
R.T.C.M.

City and County

Edwin F. Tuttle, civilian representative of the Salvation Army, was here today from Los Angeles, looking after details of the matter of fraternal organizations of the city appointing committees of five members each to co-operate in a drive for funds to be held in the immediate future.

Ed McShane, who has been assistant to City Engineer G. W. Knox, today was attached for duty with the city water department, for inspection and construction work in that department of city business.

Mr. and Mrs. Samuel Hillman of Long Beach, were guests of Mrs. Hillman's sister, Mrs. Maurice Phillips, 1017 South Main street, this afternoon.

The airplane reception day and luncheon scheduled for Friday of this week, under the auspices of the Chamber of Commerce, today was postponed indefinitely. Officials of the Commercial Aircraft Association, of Los Angeles, informed J. C. Metzgar, secretary of the Chamber of Commerce, that a number of the men who contemplated coming here with planes were ill with the influenza.

Grading and rolling of Santiago street, between Washington and Seventeenth, will be completed this evening, and the city force tomorrow will start plowing, grading and rolling of Santiago from Seventeenth to Santa Clara, according to announcement today by Edward H. Dahl, street superintendent.

T. W. Oglesby, sewer and paving contractor, today started sewer work on Shelton street as part of the sewer to be installed in Brooklyn Square, the subdivision of Jay Brooks, in the southwest section of the city. The sewer will be put in on Shelton along the tract and on Camille from Shelton to Flower.

Orange high school was dark today. With 140 students and five teachers out on account of influenza, Principal P. A. Henderson, announced that classes would not be resumed until Monday. All of the cases are said to be of the mild type but the thinning of daily attendance made temporary closing advisable. The Tustin high school also has been closed for the remainder of the week on account of the epidemic.

The Rev. J. G. Kennedy, pastor of the United Presbyterian church, will be one of the speakers at the midwinter reunion of Southern California United Presbyterians scheduled for next Friday evening at the First Friends' church, Whittier. His address will bear on some phase of the work of the New World Movement Congress held at Pittsburgh to which the Rev. Mr. Kennedy was one of the delegates from the Los Angeles presbytery.

H. J. Forgy will be the principal speaker at the meeting of the Lions club here tomorrow. He will discuss the Santa Ana bond issues. The musical program will be featured by a duet by Mrs. Edward Hummel and Mrs. Thomas Willits. A solo by Edward Hummel is included in the musical program.

Santa Anans who formerly resided in Missouri are planning to attend the annual reunion and picnic to be held March 11 at Sycamore Grove Park, Los Angeles. President E. W. Ames will preside. Those who desire further information are requested to consult C. H. Parsons, secretary of the Federation of State societies, Continental National bank, 901 South Main street, Los Angeles.

"Supplementary Reader Methods" was the subject of discussion at the monthly meeting of the city's elementary school principals held last evening at James's cafe. Miss Margaret Livingston, county librarian, told of the methods used in her work, after which the members joined in an open discussion.

CHARGES BAD CHECK
A charge of issuance of a fraudulent check was brought today by John H. Neal of Santa Ana, against Ray Wardlow. The complainant alleges that Wardlow gave him a check for \$7.52, and that the check was worthless.

Dame
Fashion
Says

When Those Responsible For Fashion Dictated "Uncorseted Effect"

women were afraid of the problem of finding a suitable substitute for the regulation corset. While desiring to do away with heavy boning and stays, they realized that by some device the body lines must be controlled in accordance with the fashionable trend.

The solution appeared in the Corset Brassiere, which serves for many figures all the essentials of regulation corsetry while moulding the figure into correct, natural, smart lines and conferring more attractively the uncorseted effect.

Corset-Brassieres in Brocades
and Other Corset Materials at
\$2.00 to \$5.00

There are consequently side-fastening models, with hose supporters, with surgical elastic triangular insert at the hip and some have elastic in the belt, giving freedom of motion and at the same time insuring the proper figure lines.

Girdle Novelties

Continuing the story in a more definite form, we come to the new girdles of Suede—combinations of colors or plain colors are to be had, including jade, brown, black, green, blue, red, etc. Some are set with jewels, most have suede tassels. Very good values at \$1.25 to \$3.00.

One may choose novelty belts for one-piece dresses in red and black, tan and grey, black and white—interlaced leathers. 75c.

Floral Head Bands

A wholly delightful, charming and girlish effect is given by the tasteful choosing of a suitable head band for wear with dancing or party dresses. They come in silver and gold cloths, many dainty floral designs. \$2.00 to \$4.00.

Silk Ratine

Silk Ratine is a new Spring weave we feel like calling to your special notice. It comes in jacq, gendarme, carnal, black and white. Is 40 inches wide. A very attractive material for dresses, skirts and blouses. \$2.50 a yard.

SPECIAL
For "Baby Day"
**Muslin
Unions 75c**

Every Thursday is "Baby Day" at Rankin's, and tomorrow we are offering at this special price Sexton muslin union suits, also athletic unions with the pink and blue or black and white bloomer effect. Very desirable little garments, sizes 2 to 6 years, special at 75c.

Neckwear Expresses Spring Themes

Just about the smartest thing in ages is the new Ratine Vestee for sports wear. High shades feature these enchanting novelties, combinations of orange and tan, rose and tan, and others. They are done in the true Spring spirit. Priced at \$4.75.

—for Outing Suits

New Windsor Ties in Roman stripe effects, plain colors of Copen, Rose, Blue, Brown—all colors. 65c.

Smart new Middy Ties in Red, Blue, Orange, Green, etc., for wear with outing suits. Very attractive and dainty. \$1.00.

Organdie

New French Organdie in all the newest shades—Seafawn, Hague, Cotillion, Nell Rose, Mohawk, Persimmon, Currant, Dorothy Rose, Copen, Shrimp, Pomato, Orchid, Jade, etc., etc. They're 46 inches wide. \$1.00 a yard.

Here's A Value That Shows How Low Prices Are
On Good Furniture In This Store

Oblong Dining Tables Walnut Finish Queen Anne \$49.50

This table is of the simple Queen Anne design that will appeal to lovers of modest refinement. The oblong shape is the preferred shape of the day, and a rich walnut finish further increases the attractiveness of the offer. Extending to six feet, it provides ample accommodations for all occasions.

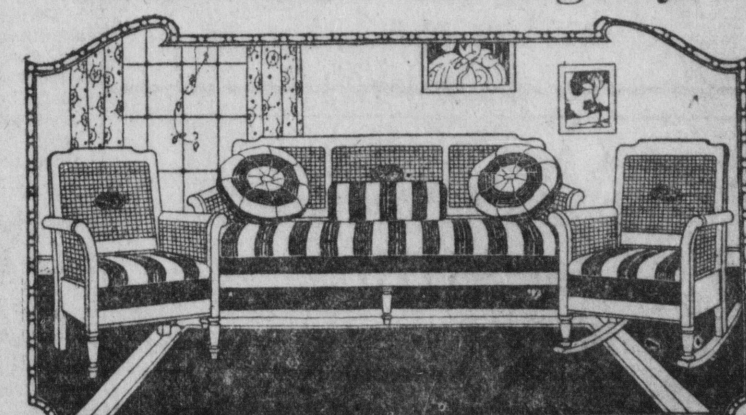

This table at \$49.50 is typical of the beautiful and serviceable dining room furniture offered by Horton's at moderate pricings. Every piece in our stock, whether the cheapest or the best, is of reliable construction and finish. This offer is an idea of other incomparable values and Horton's incomparable service.

The Hood On This Sulky Folds Flat \$18.50

A flat folding hood is seldom found on a reed sulky. It's a feature of this offering, providing that added convenience of ease in putting into a car and other times when bulkiness is to be avoided. This sulky, as pictured above, comes in a choice of ivory or grey finishes; it has easy riding springs—and is a good value at \$18.50.

Cane and Mahogany

For living rooms, in which a certain degree of daintiness must be combined with service, the cane suite fills the requirements. The frames are mahogany finished, seats have spring-filled cushions, and included are four rosette pillows and a bolster. One surely gets a great value in this **\$229** suite at

The Paper That Goes Home

VALUE OF THRIFT POINTED OUT BY BANKERS AS SAVINGS DRIVE STARTED AMONG STUDENTS HERE

"Thrift in early life establishes the foundation for ease and comfort in old age. Parents and teachers can perform no greater service to children than to teach the value of forming the habit of saving their money instead of spending it foolishly."

A. J. Crookshank, president of the First National bank, today offered this as his contribution as a thought in the annual thrift week campaign instituted in the Santa Ana schools today. The banks of the city are co-operating with the school authorities in the campaign, which is designed to drive home to children the importance of opening savings bank accounts and making deposits regularly.

Teaching of thrift in the school is obligatory upon school authorities under a new school law operative this year, according to J. A. Cranston, superintendent of city schools.

The three-day campaign of education—today, Thursday and Friday—is expected to culminate Saturday in the opening of a large number of savings bank accounts by children and adults of the city—for adults are expected to enter into the spirit of the week.

To Tell Thrift Value.

Teachers will discuss thrift before the classes for the next two days and arrangements were completed today for an address at each school tomorrow by local business men. One man will be assigned to each school.

In carrying out plans for teaching thrift in the schools, as provided by law, Cranston announced today that arrangements would be made later for the establishment of a depository at the schools. Some one will be designated to accept deposits from the children and make deposits once a week in banks designated by the children.

The thrift campaign conducted by the local schools last year was very successful and resulted in a large number of savings accounts being opened.

"Anything that will induce thrift among children and teach them the value of saving should be encouraged," said W. B. Tedford, vice president of the Farmers' and Merchants' Savings bank. "It is a splendid idea for children to form the habit of saving and adding a little all the time to their accounts. A bank account ties them up to something definite and creates pride in increasing their balance. The banks are glad to co-operate in any movement that will tend to increase the interest of children in opening savings accounts."

Strongly Favors Move.

"The habit of saving money is something that should be taught to every child," said W. E. Otis, president of the Orange County Trust and Savings bank. "The opening of an account stimulates the child to greater effort in increasing his balance and as a result money that would be thrown away on trivial things goes to his credit at the bank."

J. E. Bremann, cashier for the American National bank, quoted from Benjamin Franklin, when asked for an expression as to the benefit children will receive from saving their money, as follows: "Save, young man, and become respectable and respected. It is the surest way."

"This axiom from the mind of one of America's greatest thinkers should strike home with the young people of Santa Ana," said Bremann. "Our most successful business men headed in their youth and are happy for having done so. They practiced thrift without personal inconvenience and the dollars they saved proved the foundation for their present fortunes."

"Success is attained by those who early learn to save," said Elmer J. Crawford, cashier of the California National bank. "The habit of saving must first be mastered. It is able to a student to teach him the full force and effect the development of a good bank account in early life has on the later years of his life. A bank account gives a young man financial standing that is invaluable to him, whether he be student, mechanic, farmer or business man."

'PENZANCE PIRATES' OPERA IS GIVEN OVATION AT AUDITORIUM

By FRANCES DEANER

CAST

Richard, a pirate chief . . . Robert Brown
Samuel, his lieutenant . . . Fred Wilde
Frederic, a pirate apprentice . . . Ray Miles
Major-General Stanley, of the British army . . . Fred Wilde
Edward, a sergeant of police . . . Maurice Phillips
Mabel, General Stanley's youngest daughter . . . Marjorie Warner
Kate, Edith, Isabel, General Stanley's daughters . . . Dorothy Mead, Kathleen Owens, Esther Pembler
Ruth, a practical 'maid-of-all-work' . . . Edith Cornell
General Stanley's daughters, pirates, policemen, etc.

Four curtain calls at the finale, with a large and interested audience lingering expectantly in the hope of a fifth bow from the talented company, is ample evidence that "The Pirates of Penzance" the second production of the Orange County Choral union, under the direction of Ellis Rhodes, is a success.

And those four curtain calls at the high school auditorium last night had been preceded by appreciative applause at the rise of the first curtain on the attractive scene showing the pirate band on "a rocky shore on the coast of Cornwall"—applause that reacted to every song number and humorous scene, gaining in volume with the unfolding of the plot and reaching the peak of enthusiasm with the "paradox" trio, sung and acted with magnificent artistry by Robert Brown, Edith Cornell and Ray Miles.

Santa Ana audiences have learned to look for scarcely less than perfection from Robert Brown and Ray Miles and their success in "The Mikado" easily paved the way to laurels they won last night.

Clever Performance

But Edith Cornell was a new-comer to the local operatic arena. With her first song she aroused keen interest and as she appeared in succeeding scenes the audience reacted to her performance, expressing unstinted appreciation of her clever interpretation of the piratical maid-of-all-work, which is an outstanding feature of the production.

The scenic investiture of the opera is picturesque. June Hamilton Rhodes the stage manager of the Orange County Choral union, evidently has taken her first commandment from the book of Genesis—"Let there be light" for no detail of the switch-board is too insignificant to be overlooked.

Her lighting effects last night helped materially in putting over the spirit of the comedy.

Space does not permit a detailed account of the individual performances, but it is due to the excellent team work of all concerned that success may be chalked up against "The Pirates." Fred Wilde, however, deserves special mention, for he went through his long role last night in spite of the fact that the day before he had been in bed ill with influenza. His performance was a demonstration of what will power can do.

Personnel of Chorus

The personnel of the production follows:

In the orchestra pit with Ellis Rhodes were Miss Ruth Armstrong, at the piano, and members of the Orange County Symphony orchestra of Fulton, C. E. Tozier, director.

In the chorus:

Mrs. Ed. Ballou, Mrs. Annie Billingsley, Mrs. Lula C. Blacketer, Paul Brown, Josephine Bull, Beatrice Cartwright, Mrs. A. E. Chapman, Robert Conklin, Mrs. Clara Cook, Lydia Fisher, Ruth Frothingham, F. L. Gibbs, T. W. Halliwell, Mrs. Harry Hayes, Agonia Heimerdinger, W. L. Hillyard, O. W. Householder, Hazel Landers Hummel, G. R. Hoskins, Eva L. Johnson, Mrs. W. G. Knox, William Kneen, Mrs. Maude Lash, Ruth M. Lott, Miss R. Leary, J. A. Miller, Gertrude Montgomery, Louise Montgomery, G. R. Parker, Beth Phillips, Mrs. B. D. Peterson, Dorothea Smith, W. R. Stokes, E. H. Sautley, Laura Smith, A. H. Taylor, Fannie Tarver, Carol Van Cleave, Kathryn Van Doren, W. C. Vieira, T. H. Warner, Geoffrey Wilde, Charles Wollaston.

Back stage—R. F. Keys, kindly "loaned" by the Kinema theater of Los Angeles, to assist June Hamilton Rhodes in the manipulation of the lights; C. C. Brisco, of the Santa Ana high school auto shop, who is the house manager, and the following high school students who are regularly assigned to their respective duties as follows:

Francis Selway, stage manager; Harold Mathews, electrician; Minor Cox, properties; Samuel Milten.

"The Pirates" is to be staged again tonight at the Santa Ana high school auditorium.

Members of Sewing Club Have Happy Evening

Miss Irene Adamson pleasantly entertained the members of the O. R. G. club last night at the home of her uncle and aunt, Mr. and Mrs. W. C. Young, 1206 North Broadway.

The members are organized as an embroidery club, so the contents of the pretty sewing bags yielded the evening's entertainment while needles and tongues ran a merry race.

At the close of the delightful evening, Miss Adamson served a dainty little supper to her guests who included Mrs. Lee Walker, Mrs. Hazel Hargett and the Misses Lillian Confer, Blanche Crowthers, Maude Whitinger, Mary Parry, Bess Holloway, Ethel Lawrence, Nell Holloway and Amy Clark.

Personals

John Smallman, director of the Los Angeles Oratorio society, and a party of six friends motored down from Los Angeles to attend the performance of Orange County Choral union members in "The Pirates of Penzance" last night.

We Have Built A House (for Somebody Else) out of Our Rent

Start Buying a Home-site of Your Own

on Liberal Terms

Only **\$10** a Month

With an Initial Payment of But \$100

There is no reason why you should continue to buy homes for other men. With a portion of the money that is now going into the landlord's pocket you can be buying a home site of your own. And a site that is certain to increase in value within a very short time. People are buying property who can not afford to pay rent indefinitely and are preparing for the day when they can have their own home. It makes better citizens for the city and makes happier homes. There is a joy about working around a home of your own that appeals to most men and what woman would not prefer to beautify her home rather than a rented house. TALK IT OVER WITH YOUR FAMILY AND PHONE FOR AN AUTOMOBILE TO TAKE YOU OVER THE TRACT. SEE IT FOR YOURSELF.

Lots \$850

Including Sidewalks, Curbs, Oiling and Grading of Streets, and Mains for Gas, Water and Sewers

Located where the City will grow--Toward the sea

Every day there are thousands of people coming to Southern California to make their home. Santa Ana is getting her share of these homeseekers. Now there is hardly enough houses to accommodate our citizens and where are the new people to go? The city must grow. The favored direction of growth is to the south and west—toward the McFadden Tract. Out the paved boulevard of Main street, just five minutes from the center of the city lies the tract that will some day be the show place of the city. Buy a lot now and you will be in line for the property value increases that are certain to come.

Former School Friends Gathered In Reunion Enjoy Five Hundred

A happy reunion of former school-mates was held recently, when Mrs. Harold Yost entertained a group of friends at "500" in honor of her house guest, Miss Helen Preston, of Los Angeles.

Mrs. Yost's charming apartment on South Birch street was decked with lilies and jonquils in honor of the event, the yellow and white of the floral decorations being emphasized in the salad course followed by ice cream, cake and coffee, which formed the dainty refreshments of the evening.

In the series of games Mrs. George Paul Jr. won high honors and was rewarded with a pair of hand-some candlesticks in art ware. Miss Preston received a gay little decorated flyswatter as a measure of consolation for having low score of the evening.

Those who enjoyed Mrs. Yost's hospitality and the opportunity to reminisce of their school days, were Mrs. George Paul Jr., Mrs. Sam Barker, Mrs. Farwell Hull, Mrs. Amelia Pockham, Mrs. Floyd Knight and her house guest, Miss Helen Pombau, the Misses Dorothy Mead, Arvilla Ball, Elizabeth Givens, Isobel Anderson, Muriel Lee of Pasadena and Miss Preston.

Mrs. Yost was assisted in receiving and entertaining her guests, by her mother, Mrs. Crozier.

Winter Guests Incentive For Family Gathering

Mr. and Mrs. C. J. Gardner, 521 East Walnut street, were delightful hosts last night, when they asked a group of friends to dine in honor of Mrs. Gardner's brother-in-law and sister, Mr. and Mrs. A. W. Wilson.

The affair was in the nature of a farewell party for the Wilsons who are leaving this week for their home in Seattle, after having spent the winter with Mrs. Wilson's father, L. W. Stearns of Huntington Beach.

A delicious course dinner was served, places being indicated for the host and hostess, Mr. and Mrs. Gardner; the honor guests, Mr. and Mrs. Wilson; Mr. L. W. Stearns, Mr. and Mrs. L. J. Stearns and daughter Louise, Mr. and Mrs. L. B. Stearns, Mr. and Mrs. B. F. Lindsey, all of Huntington Beach, and Mr. and Mrs. M. B. Stearns of this city.

Surprise Friends by Advancing Wedding Date.

With plans all in readiness for a pretty little home wedding Saturday afternoon, Miss Janice Marie Prince and Ross A. Howe, yesterday took matters in their own hands, and obtaining their license to wed, hastened to their good friend, Judge Cox and had the matrimonial knot tied over their return to the home of the little bride's parents, Mr. and Mrs. Emory H. Prince, 703 Hickey street.

The romance began last fall when the two young people met, shortly after the arrival in the city of Mr. Howe with his parents, Mr. and Mrs. Charles Howe, who came from their Colorado home to spend the winter months and have been located at 817 East Second street.

Mr. and Mrs. Howe junior will make their home with their parents until the return of the senior Howes to Colorado next month, after which they will go to housekeeping, and Mr. Howe will go into business in this city.

Past Presidents' Club Enjoys Afternoon At Bishop Home

Meeting only three-times each year, members of the Past Presidents' club of Ebells feel that their triennial meetings are productive of great pleasure and interest, as well as of a closer knitting of the bonds which bind them together.

The recent meeting with Mrs. Lilian Bishop at her home, 502 South Broadway, was no exception to the rule and yielded a delightful afternoon to those attending, who included the past presidents now residing in the Santa Ana valley.

These were Mrs. Victor Montgomery, who presides at the head of the club affairs, Mrs. Bishop, the hostess, Mrs. S. M. Davis, Mrs. Edward M. Nealley, Mrs. A. J. Crookshank, Mrs. Samuel W. Nau, Mrs. William L. Grubb and Mrs. J. E. Gowen.

While the meetings have always been purely social in their nature, it was decided by the members, that a little serious study might add to the interest, so henceforth, one magazine article having a bearing on important events of the day, will be read and discussed, while it is possible that book reviews will also be introduced.

The next meeting, completing the series for the current club year, will be held in May on the Saturday afternoon preceding the regular Ebells club day.

Late in the afternoon Mrs. Bishop escorted her guests to the flower decked diningroom, where she presided at a charmingly appointed tea table.

Friends Gather for Wedding Anniversary

Music and games formed the entertainment at a merry gathering held recently to celebrate the eleventh wedding anniversary of Mr. and Mrs. James Vandervolf, 1810 West Second street.

Mr. and Mrs. Vandervolf proved themselves delightful entertainers and had arranged a number of amusing games for the event. Contest favors were awarded to a group of three men, Messrs. John Scheffer, Roy Randall and D. Holmes who proved more skillful than the female members of the party with the exception of little Henrietta Scheffer, who also was a prize winner.

At a late hour in the evening, a delicious supper was served to the assembled guests, among them being Mr. and Mrs. Dennis Holmes and Curtis Goodmas of Los Angeles.

Mr. and Mrs. Vandervolf received many beautiful gifts in honor of their wedding anniversary.

Drama-Short Story

Mrs. Fred Cole and Mrs. F. P. Nickey will be joint hostesses to the Drama-Short Story section of the Ebells club at the regular meeting Friday afternoon, March 3 at 2:15, at the home of Mrs. Cole, 616 Cypress street.

All members are cordially invited to be present, but if unable to attend, are requested to notify Mrs. Nickey, telephone 929-M.

D. A. R.

Members of the local chapter, Daughters of American Revolution, have been notified that the regular meeting scheduled to be held Saturday, March 4, at the home of Mrs. L. G. Swales, has been postponed two weeks, or until Saturday, March 18.

Anniversary Dinner Arranged by Daughters Yields Pleasant Surprise

The absence from home of Mr. and Mrs. J. A. Powelson, 501 East Fifth street, on Sunday when they attended the "Texhoma" picnic at Long Beach, gave their daughters, the Misses Vella, Zola and Eula Powelson, the opportunity to arrange a happy surprise in honor of their mother's birthday.

Upon the return of the picnicers from the Long Beach gathering, where they had the pleasure of greeting many old friends, they found the home decked with flowers and a delicious dinner awaiting them.

At a beautifully appointed table, places were indicated for the surprised honoree and Mr. Powelson with their daughters, the Misses Vella, Zola and Eula, and sons, Strand and Boyd Powelson; Mr. and Mrs. O. E. Perkins, Mr. and Mrs. Glenn Bright and son, Norman, all of Santa Ana; Miss Ethel Thompson, Orange; George Ashbey, Pasadena; William Arnet, Anaheim; and Mr. and Mrs. F. E. Poor, Costa Mesa.

Mrs. Powelson was the recipient of a number of beautiful gifts in honor of the occasion, and particularly enjoyed the great birthday cake baked by her daughters, which bore on its gleaming surface the word "Mother," followed by her age.

Altar Society Affair Ushers In Lenten Season

Many members of St. Joseph's Catholic church, last night participated in the first social activity of the church until after the lenten season with a box social, held at Knights of Columbus hall. Nearly one hundred men and women were present and passed a delightful evening with hearts.

At the conclusion of the series of games, prize winners were announced and partners for lunch were selected by the matching of numbers passed out.

Mrs. F. J. Wagner won the first prize for women and Miss Viola Slaughter the consolation, while the men's first prize went to John Koos, a journeyman from Hastings, Neb., and Julius Meyer was consoling.

Contrary to the usual custom of a box social, the lunch boxes were not sold at auction, but were free with the individual selecting a box that looked like it might contain the best foodies.

A happy incident of the evening was the presentation to Dr. and Mrs. John J. Connelly of a handsome silver electric coffee urn, with sugar bowl, cream pitcher and tray. It was presented by Thomas Murphy on behalf of Knights of Columbus Council, of which Dr. Connelly is grand knight.

In his presentation speech, Mr. Murphy stated that the gift was an expression of appreciation of the members for the splendid work the grand knight has done in building up the council, and also an expression of their goodwill and best wishes for a happy future for Dr. and Mrs. Connelly whose wedding was of such recent date.

Dr. Connelly responded to the presentation address with a few pleasant words. The affair was in the nature of an introduction of Mrs. Connelly, as this was her first appearance among the warm friends who were waiting to know Dr. Connelly's charming bride.

Current Events

A comprehensive glimpse of the events in the world today, was gained by members of the Current Events section of Ebells club, from the responses to roll call at the regular meeting held yesterday afternoon with Mrs. Ray Adkinson, 1505 North Main street.

Acting as joint hostesses with Mrs. Adkinson, were Mrs. Herman Nixon and Mrs. H. Marvin Morrison.

The usual routine of business over, members spent the afternoon in a discussion of plans for raising money for the Ebells clubhouse fund.

It was decided to take no definite steps until the ways and means committee of the club under the chairmanship of Mrs. Samuel W. Nau, should indicate what plans met with the approval of the committee members.

During the social hour which followed the discussion, the three hostesses served refreshments to the members and guests present, who included Messdams A. W. Williams, Ray Townsend, E. B. Van Meter, C. V. Doty, Charles Kendall Jr., George Paul Jr., Ray Chandler, Fred Chapman, Kensil Brown, Harold Yost, John Irwin, and Harold Nelson, with Mrs. Albert Fields, Miss Margaret Sortor and Miss Margaret Robertson as guests.

Legion Auxiliary

Members of the American Legion Auxiliary were today anticipating the regular meeting to be held tomorrow night at the armory, when it is the hope that Mrs. Ida Morgan of San Diego may be present to give report of the national convention held last fall in Kansas City, and which she attended as a delegate.

Mrs. Morgan was to have appeared at the meeting two weeks ago, and representatives from auxiliaries throughout the county, were present to greet her and hear her report, but all were disappointed as illness prevented her being present.

In anticipation of her presence tomorrow night, these representatives have again signified their intention to be present, and an interesting meeting is expected to result.

City Teachers' League

The meeting of the City Teachers' League originally scheduled for tomorrow afternoon, has been postponed until Thursday, March 9, when it will be held at the announced hour, 8:15 p. m., at the junior high school auditorium.

The engagement of the Bandbox Players at the high school, was the reason for postponing the meeting, as all the teachers wished to take advantage of the opportunity to see the afternoon offering of the players, to be given in the auditorium at 2:45.

W. C. T. U.

Following action taken yesterday at the meeting of the W. C. T. U. with Mrs. Fanny Lash, 226 Cypress avenue, a new plan for future meetings will soon be put into effect.

This will be for one meeting each month, to be held in one of the churches of the city, that church to offer its hospitality for a year, so that all members may know exactly where the one session will occur. The second meeting of the month will be held in the home of some one of the members as heretofore, the city to be divided into four sections, each having a chairman, and also each section holding separate meetings, although on the same date. It is believed that this plan will serve to aid the members in becoming better acquainted with each other, as the second meeting each month will be more of a social nature, important business being left for the monthly union meeting at the church.

Yesterday's session opened with devotionals led by Mrs. Anna Mitchell, after which Mrs. H. M. Sammis gave a vocal solo to the accompaniment of Miss Ruth Armstrong.

Mrs. G. P. Hill, county president, announced that the county convention would be held in Orange, April 18 and 19.

The subject for the afternoon was "Medical Temperance" and was presented by Dr. M. Leon Hutchins, Los Angeles, state W. C. T. U. superintendent.

Dr. Hutchins declared that the provisions of the federal prohibition law for the sale of liquor for medicinal purposes, has proven a great hindrance to the enforcement of the prohibition law.

In his talk, Dr. Hutchins presented some alarming facts for which he had statistics, in proof of the number of prescriptions that are issued by medical men for liquor, and as a comparison showed the situation in states where permits to prescribe whiskey were not issued.

The speaker also cited the fact that the American Medical association declared in 1917 that the use of alcohol as a therapeutic agent, should be discouraged.

The next meeting of the Union will be the annual one, and will be held at the home of Mrs. W. H. Thomas, 424 West First street. All reports are to be given at this meeting.

Ebells Society

Following a recent offer by C. P. Heil to the Ebells club, that it might have the use of the new unit of the Excelsior Creamery company for a social affair prior to the building being devoted to dairy purposes, the ways and means committee of the Ebells club, under the chairmanship of Mrs. Samuel W. Nau, today announced that Thursday night, March 9, was the date selected for the "Hospitality Night."

Dancing and music will offer di-

Genuine Chalmers Spring Weight Porosknit Underwear \$1.50

version for the evening, with perhaps an added attraction in the nature of a brief program. However, plans for the entire evening were still more or less nebulous, declared Mrs. Nau, but would be announced in the near future.

All proceeds of the evening will be devoted to the building fund for the Ebells clubhouse, and a merry crowd of Ebells friends is expected to be present to help swell the fund.

Woman's Club

When members of the Santa Ana Woman's club meet Tuesday afternoon, March 7, with Mrs. C. P. Krynbl, 215 East Tenth street, they

will have the pleasure of hearing an interesting program prepared by Mrs. C. F. Crose and Mrs. James C. Clark.

Mrs. Crose, who is district chairman of international affairs, has chosen "Internationalism" as the subject for her paper, while the musical part of the program will be furnished by Mrs. Clark.

The program will begin at 2:30 o'clock.

In all motion picture theaters in Japan there is always a speaker who dramatically explains each picture, because the English words shown on the films are unintelligible to the audience.

Extra sizes at \$2.75.

Fine Thread Cotton Unions, \$2.00

Made of the very finest of cotton thread with fine mercerized finish. This garment gives the appearance of finest lisle. Comes in either Bodice or Band Top with cuff knee, brocaded ribbon shoulder straps.
Either white or flesh is furnished in this popular garment at \$2
Extra sizes, \$2.25

Extra Value Union Suits, \$1.00

Here is extra value in underwear, a really superior quality at a price you'll be glad to give when you see the garment. Made of fine self finish cotton in white mercerized torchon lace beading and ribbon. These vests are very attractive and are different from usual. The price too is really less than you would expect for such quality. White only 65c
Extra sizes, 75c.

Ladies' Fine Balbriggan Vests, 75c

These fine smooth balbriggan vests are somewhat different from the usual in garments for summer wear. Made of fine firm yarns in the smooth flat weave peculiar to balbriggans. They appear a trifle heavy whereas they are a delightfully light, cool, soft summer garment. Found here in white or pink, at .. 75c
Extra sizes, 85c.

Ladies' Lisle Vests, \$1.00

These vests are of the finest of lustrous finish lisle thread, nicely finished at the neck insuring satisfactory wear. This garment has the appearance of and feels like light weight silk, but at a far less price than a silk garment would sell for. Band or bodice top in white or pink \$1.00

Ladies' Gauze Lisle Bloomers, \$1.00

A full line of sizes in these fine lisle bloomers may be had here in either white or pink, sizes 36 to 44, and the price indeed moderate for this quality.
You'll not find a better value at \$1.00

ORANGE COUNTY NEWS

EASTER SERVICE TO BE HELD IN NEW CHURCH

(Special to The Register)

ORANGE, March 1.—Catholics of Orange and vicinity today were congratulating Father Burelbach upon the dispatch with which the arrangements for the new church being built here were handled.

On December 18 the first mass was conducted by Father Burelbach in a millinery store here, as a result of these services a movement was set on foot to build a church.

December 23 an option was secured on the property of the Methodist church at the intersection of Chapman and Shaffer.

December 28 ten thousand dollars was placed in escrow by Father Burelbach covering the sale of the property.

January 27 the time limit of the necessary advertisements expired.

February 14 the deed and title were delivered to Father Burelbach. Two days later the contract for a temporary church was let to Frank Beck.

Today a force of workmen was making rapid progress with the installation of the foundations.

"And by Easter," said Father Burelbach, "we hope to hold our first service in the new church."

The temporary church will occupy only a part of the frontage purchased by the church. This consists of 12 feet on Chapman and 162 feet on Shaffer street. Later, two houses now fronting on Chapman probably will be torn down to make way for a more pretentious church edifice.

Quarters for Father Burelbach will be built in the rear of the church. Bishop John J. Cantwell, of Los Angeles, will conduct confirmation services in the new church probably late this fall.

Garden Grove

GARDEN GROVE, March 1.—The regular monthly meeting of the Parent-Teachers' association will be held in the grammar school auditorium at 2:30 o'clock. A good attendance is urged.

Seven young men from the Redlands university will have charge of the B. Y. P. U. meeting and the evening services at the Baptist church next Sunday evening.

Miss Thelma Emerson attended the wedding of Miss Mildred Fordham and Arthur Weaver at the L. A. Fordham home in Fullerton last Sunday afternoon.

Mrs. Dan Young and daughter, Thelma, of San Diego, spent Sunday at the W. M. Morrill home. Mrs. Morrill and Mrs. Young are cousins.

John B. Gibson returned Saturday from Cema, Nevada, where he has been tending to mining interests since Christmas. He will resume his position for the Garden Grove Feed and Fuel company March 1.

Carl Lott left Sunday for his uncle's ranch in Lansing, Michigan, after spending the last year and a half at the home of his parents.

Mrs. George Moon, who has been ill, is improving.

The Misses Ethel Archer and Esther Anderson were Los Angeles visitors Saturday.

Mr. and Mrs. V. D. Temple, of St. Paul, Minnesota, who have been spending the winter in Eagle Rock, visited from Saturday until Monday at the W. R. Aldrich home. They were old friends in Morristown, Minn.

Mr. and Mrs. Harry Elmore, Mr. and Mrs. J. D. Elmore and Mrs. Mary P. Edmunds visited Mr. and Mrs. A. Packard in Los Angeles Sunday.

Leaves for Switzerland.

E. Schneider left the last part of last week on a several months' trip to Switzerland, to visit his sister.

G. R. Reburn attended the state convention of Commercial Secretaries held at El Centro last week. Reburn reports a pleasant and profitable time.

Mr. and Mrs. Maurice Urwick and daughter, Maxine, of Pomona, visited from Saturday until Tuesday at the T. E. Niles home.

The following attended the meeting of the Royal Neighbors in Santa Ana Monday evening:

Mr. and Mrs. T. C. Natland, Mr. and Mrs. J. Hammontrout and Mrs. K. S. Hammontrout.

Miss Edith McConnell spent Monday in Los Angeles.

Mrs. George Reburn and Miss Mabel Woodworth attended the Ebell club meeting in Santa Ana Monday afternoon.

Mr. and Mrs. W. R. Aldrich and daughter, Miss Eveleth, and Mr. and Mrs. V. D. Temple motored to Huntington Beach Sunday afternoon.

Mr. and Mrs. William Yardley, who have made their home at Corona since last April, visited at the home of the latter's brother, W. M. Morrill and family Sunday. They expect to leave for Newtown, Mo., soon.

E. G. Edmunds and family spent Sunday with Mrs. Edmunds' sister, Mrs. T. A. Ellis at Villa Park.

NO ACTION TAKEN

No action was taken at the meeting of the board of directors of the farm bureau poultry department last evening, due to the absence of several members.

Saws sharpened, Hawley's.

THE FACE IN THE MIRROR

Your face, does it wear the contented expression of good health, or are the features drawn and pallid? In the latter case, your story is read by all who see you, and what woman of spirit wants to be pitied for her physical condition? There is a way to get the nervous, tired lines out of your face and the slump out of your body. The use of that standard remedy, Lydia E. Pinkham's Vegetable Compound, will strengthen the nerves and tone up the system to resist that excessive fatigue, adv

140 STUDENTS AND 5 TEACHERS ILL WITH FLU AT ORANGE HIGH

(Special to The Register)

ORANGE, March 1.—Five teachers and one hundred and forty students of the Orange high school were reported absent from school and suffering with colds and influenza, according to a statement by Frank A. Henderson, principal here, today.

The teachers reported absent from their duties today were the Misses Dennis, Harrington, Conger and Kreighbaum and George R. Stoner.

Henderson said that reports received from the homes of those who are ill were encouraging. Although the spread of the disease has been general, physicians report that most of the cases were of a mild form. No deaths have been reported.

Members of the Santa Barbara council were particularly impressed as a result of a thorough inspection.

Nice said, and left for home, declaring that they would recommend this type of building.

The Orange city hall, which also houses the Chamber of Commerce and the American Legion, is one of the most attractive buildings of its kind in Southern California. Out-of-town visitors invariably comment upon the beauty of the structure.

ORANGE CITY HALL PROVES MODEL TYPE

(Special to The Register)

ORANGE, March 1.—Santa Barbara may build a city hall very similar to the beautiful new structure erected here at a cost of \$80,000, according to H. Warren Nice, secretary of the Orange Chamber of Commerce. Riverside is also considering the advisability of building a similar structure.

According to Nice, committees representing the city councils of these two cities have made special trips to Orange for the purpose of securing first-hand information concerning the building.

Members of the Santa Barbara council were particularly impressed as a result of a thorough inspection.

HALL TO BE BUILT WITHIN 200 DAYS

(Special to The Register)

ORANGE, March 1.—Although construction work on the new high school auditorium here has been somewhat delayed by the rains, Principal Frank A. Henderson said today that school authorities believed the structure will be completed within the 200-day limit allowed the contractors. Daniels and Parris, of Pasadena, were awarded the general contract.

The new auditorium, which is being built at a total cost of \$160,000, will have a seating capacity of 1350. There are now 530 students enrolled at the high school.

Foundation work on the new building is progressing rapidly, despite the delays, Henderson said, and it was hoped the auditorium would be ready for occupancy by September.

The addition to the high school was made possible by a \$160,000 bond issue recently approved by the voters.

DEMPSEY CLEARING UP \$14,000 PER WEEK ON NEW YORK VAUDEVILLE ACT

Champion Goes Back On Stage While Waiting for New Battle to Turn; Expert De clares Battler Shows Big Improvement In Form

By HENRY L. FARRELL
United Press Staff Correspondent

NEW YORK, March 1—Jack Dempsey is getting \$14,000 a week for filling in thirty minutes at the Hippodrome daily with a little boxing and a few wise cracks.

He says he wants to get away from the stage and fight. Most anyone else would battle to get on the stage at that fancy figure.

The champion seems to be in perfect condition. He is a little bit heavy around the shoulders, but from the looks of his slim legs and his trim waist, he could hop in the ring with about three weeks work. He is boxing with Harry Williams, one of the big sparring partners he had at Atlantic City. Of course, their work is very "stagnant" but nevertheless, Dempsey shows signs of improvement.

He seems faster and more graceful on his feet, his boxing shows much improvement and his punches are sharper and more accurate. He still breathes a little bit loudly, but not the same "noise" as was noticed just before he fought Carpentier.

\$46,000 DAMAGE CASE TRIAL IS CONTINUED

The trial of the action for \$46,500 damages brought by Edd Richardson, against the Anaheim sanitarium, alleging carelessness in the care of a broken leg, has been re-set for May 15. The case was to have been tried today. The action so far as it concerns Drs. Harold Wickett and H. A. Johnston, surgeons, named as defendants, has been dismissed.

L. A. FIGHTER WINS FAME IN AUSTRALIA

SAN FRANCISCO, March 1—Tommy O'Brien, Los Angeles lightweight was in San Francisco today after spending several months in Australia where he won considerable success. Managers are looking for a chance to match him with Benny Leonard.

Former Orange County Man Win Sou. Cal. Open Golf Championship

Rob Simpson, former golf professional at the Orange County Country club, yesterday won the Southern California open golf championship when he finished the 72 holes with a score of 295, four strokes ahead of his brother, Jim Simpson and Hutt Martin, who tied for second honors.

The championship was played over the courses of the Chula Vista and Coronado clubs. Rob Simpson is the Coronado professional while his brother holds down a similar job at the Chula Vista club.

POLY ACCEPTS BID FOR ANAHEIM MEET

Arrangements were made late today by Coach Adkinson of the high school for a joint meet with Anaheim and Huntington Beach at Anaheim tomorrow, following the cancellation of the Anaheim-Covina-Poly meet scheduled for Friday.

This tussle should prove much more difficult, as Huntington Beach is rated as a corner in the league.

High school track men will meet the combined forces of Anaheim and Covina on the Anaheim track Friday afternoon, according to announcement today.

Efforts to secure a meet with Lincoln high of Los Angeles were unsuccessful, as Lincoln had an engagement with Hollywood. As a result of this failure Coach Adkinson decided to accept the challenge of the two schools which were scheduled to meet at Anaheim Friday.

While it is expected that the teams will furnish little real opposition, the practice should be valuable. At the present time efforts are being directed toward training for the San Diego meet at San Diego a week from next Friday.

Fifteen Poly men will make the trip, and it is expected that the southerners will furnish more determined opposition than was the case when they met defeat before the local runners a week ago.

POULTRY NEWS

MODESTO—Earl F. Sanders, a turkey breeder of the Westport section, has been selected by the purchasing department for the California state institutions to supply them with breeding stock. Sanders' bronze turkeys, which have been exhibited at all the big fairs in California and at Modesto poultry shows, and which have won many prizes, will be used as foundation stock at San Quentin and Agnew, where the state maintains turkey breeding establishments.

LEXINGTON, Ky., March 1.—Patches Wilkes, one of the most noted trotting horse farms in the Bluegrass, soon is to be metamorphosed into a chicken farm, according to a recent announcement by W. E. D. Stokes of New York, the owner.

Stokes is more profitable than trotting horse breeding. Stokes and Peter Duryea bought the farm thirty-five years ago and named it Patches Wilkes after the famous trotter they acquired at that time.

SAN BERNARDINO, March 1.—An expansion program of importance for the coming year has been worked out by the directors of the San Bernardino Poultry Association, Inc., that will mean much to this organization that is helping to foster the poultry industry in the county and place it upon a firm and substantial basis. The past year has been one of growth and looking to the future the association has determined to purchase a Ford truck to be used for the delivery of feed and collection of eggs to and from members. A processing machine is also to be installed which will handle the eggs with much greater efficiency.

SAN GABRIEL, March 1.—At the close of the year 1921 the total investment in poultry equipment for the San Gabriel district was \$500,000, according to R. M. Curtis, East San Gabriel poultryman. Gross receipts for eggs and poultry were \$1,400,000 in 1921, he says, and he predicts steadier egg prices for 1922. Extremely heavy culling, due to low prices last spring, is causing this spring a heavy demand for hatching eggs, day-old chicks and pullets, Mr. Curtis says.

United States Government experts have listed twelve waxes, 102 barks, nine leaves, three roots and seven fruits and seeds that grow in Latin America as yielding tanning materials of industrial value.

STUDEBAKER OUTFIT LOSES LEAGUE LEAD

Buicks Take Two Out of Three Games from First Place Team

Dew Drop Inn	18	7	11	.385

Fanning Candy company and the Studebaker bowlers are tied for first place in the Anaheim bowling league, as the sixth week of the schedule was completed last night.

The Studebakers were at the top for just one week; when the Buicks slid up and knocked them off their perch last evening. The affair was one of the most hard fought contests of the season. The Buicks lost the first game by five pins, but rallied and took the last two despite the frenzied opposition.

Walter Schneider, with a hook ball, took high honors for the evening with 565, and also grabbed the high series and high score. The Buicks took high series with 2656.

100 ATTEND BIG H-Y DINNER AT ANAHEIM

More than 100 boys and leaders of the Orange county H-Y today were recalling features of the dinner served in their honor by the women of the White Temple church at Anaheim last night.

George Chessum, county secretary of the Y. M. C. A.; T. P. McKee, Santa Ana secretary; and Carson Smith and Norville Moore, leaders, were in charge of a group of seventeen Santa Ana boys who attended the dinner, which was held at 6 o'clock.

A. E. Roberts, a member of the International committee of the Y. M. C. A., spoke on "Young Manhood Is the Hope of the World." Camp and concert songs were enjoyed after the dinner.

CONDEMNATION SUITS WILL BE CONTINUED

Two condemnation actions brought by the city of Fullerton are not to be tried on the dates set, March 6 and 8. The cases will be up Friday for re-setting for trial. One case is Fullerton vs. Norswing and the other Fullerton vs. Starbuck. The actions were brought several years ago. Judge West advised the attorneys for Fullerton to dismiss the actions and file anew in order to rid of numerous technical errors that appeared in the cases early in the proceedings.

Public Quick to See in New

CHANDLER SIX

Notable Car at Low Cost

THE extent to which the public has been educated in motor car values, never had more striking proof than in the instant acceptance of the new Chandler car.

In all sections, urban or rural, the verdict of approval has been unanimous.

Motorists who thronged 'round the chassis were quick to point out the increased depth of frame, the staunchness of the rear axle, the transmission brake and other features of advanced construction.

Visitors also displayed a surprising ability to distinguish between genuine and solidly built cars, with richest appointments, and those where quality had been subordinated to make a lower selling figure.

Despite depressed conditions, Chandler retail sales for January were the biggest in Chandler history.

DEPUTIES READY FOR DRIVE ON ASSESSMENTS

With all but two of his fifteen field deputies selected, County Assessor James Sleeper today was on the last lap of his final arrangements for starting the 1922 assessment next Monday at noon.

Field deputies to make assessments so far selected are: Anaheim, H. H. Oelke; Fullerton city, P. C. Woodward; La Habra, Brea, Claude Ridgeway; La Habra; Olinde, Charles Robb of Olinde; Orange, Olive, Villa Park, J. R. Fletcher; Tustin, San Joaquin, El Toro, Trabuco, Roy I. Smith of Tustin; San Juan Capistrano, Henry Vander Lark; Del Mar, Diamond, Harberville, Newport Beach, Sealper, Fairview, Newport Beach, Sealper, Frank McCarter of Santa Ana; Laguna Beach, A. E. Tanberg; Huntington Beach, E. P. Summers; Garden Grove, R. A. Chaffee; Santa Ana, E. F. Waite and Frank McCarter.

With re-appraisements on all buildings in cities and of many orchards already done, the deputies will be concerned largely with readjustments in realty and personal property values.

Personal property taxes were not attached to real estate assessments will be payable on demand of the deputy.

"We have a big job on our hands this year," said Sleeper, "for the reason that the number of assessments has increased tremendously. I therefore ask taxpayers to respond to the visit of my deputies promptly. I ask that deputies be not asked to call a second time. Also, let me call attention to the fact that personal property cannot be put against a real estate assessment unless the owner of the personal property is the record owner of the real estate. Anyone who has a contract on a piece of land cannot have his personal property placed with the assessment on that real estate, but must pay on his personal property at the time the assessment is made."

DENY \$9700 DAMAGES IN ACCIDENT ACTION

Evidently leaning toward the testimony of witnesses for the defense who said that Robert Moffatt, San Juan Capistrano carpenter, walked into the side of a passing automobile and was himself to blame for the accident, the jury that yesterday sat in the trial of Moffatt's action for \$9700 damages against L. M. Andrews of Laguna Beach brought in a verdict for Andrews.

The accident occurred at the south side of the intersection of Fourth and Main streets. Moffatt was walking east on Fourth and was struck by Andrews's machine going north. Several bones were broken, and, according to testimony of physicians, Moffatt suffered permanent injuries. Fred J. Parker, night-watchman, and Moffatt said that Andrews swerved and struck the San Juan Capistrano man.

The principal witness for the defendant was Dean Collier, teller in the Farmers and Merchants' Savings bank. He said that Moffatt in crossing the street was looking north, and walked into the side of Andrews's machine.

Jurors were Joseph Utz, Esther F. Chapman, M. O. Ainsworth, A. R. Christensen, W. F. Lutz, A. A. Bennett, Rebecca Pope, J. T. Hill, Eva E. Abernathy, Addie A. Drake, Kathryn Broomell, H. S. Horn. L. A. West appeared as attorney for the plaintiff, and B. E. Tarver and Paul Nourse for the defendant.

ALLEGED BUNCO MAN HELD TO ANSWER ON SECOND FRAUD CHARGE

J. K. Woods was ordered by Justice Cox held to answer on a charge of fraud brought by Mrs. Emily Holders. Woods is under sentence in the superior court, awaiting trial on a charge of defrauding Mrs. Emily Resh of Anaheim on what is known as the sale of desert lands. The case before Justice Cox for preliminary hearing yesterday was a similar case, the district attorney's office having decided to proceed against Woods on a second count.

Some men take as many as three hundred and twenty strokes in shaving themselves, although the average is about one hundred. There are tales of one expert barber who did it in a dozen.

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the callouses, without soreness or irritation.

KIWANIS CLUB GIVES THRIFT ENDORSEMENT

The Santa Ana Kiwanis club today at its noon luncheon gave unanimous endorsement to the thrift week campaign in the Santa Ana schools, with Saturday to be Santa Ana thrift day.

It is the hope of J. A. Cranston, superintendent of schools, that children and adults will open savings bank accounts on Saturday that will make a world record for the number of such accounts opened in one day by a single city.

The Kiwanis club will provide speakers to address the students of the various schools either tomorrow or Friday, twelve members volunteering to make addresses. Assignment of speakers to the different schools will be made this afternoon by Cranston. Those who volunteered were:

M. B. Wellington, John W. Estes, O. H. Barr, Stanley Reed, F. P. Jayne, J. P. Baumgartner, L. R. Crawford, John Knox, Freeman H. Bloodgood, J. B. Fernandez, W. L. Duggan and R. R. Miller.

In opening the meeting, members of the club paused for one minute out of respect to the memory of Hector L. McDermott, Kiwanis member, who died here Friday. The secretary was instructed to draft resolutions of sympathy to send to the family. The club will send a floral piece for the funeral, it was decided.

Luther Brown, former resident of this vicinity and now of Los Angeles, addressed the club on the power act, to be voted on at the coming state election. He declared that if the act is approved it will mean a mortgage on the property in this state equivalent to \$160 to \$170 a family. He discussed various features of the proposed act, asserting that the commission, provided for handling the \$500,000,000 fund, would be a power unto itself, and that its acts could not be reviewed by the legislature or the people.

ATTENDS FUNERAL OF STEPMOTHER AT UKIAH

(Special to The Register.)

HUNTINGTON BEACH, March 1. R. L. Obarr returned here today from Ukiah, where he attended the funeral of his stepmother, Mrs. R. L. Obarr, who died there last Tuesday, from pneumonia.

Obarr's wife returned recently from Los Angeles, where she attended the funeral of her aunt, Mrs. Thomas Cadd, 74, for many years a resident of Huntington Beach. Mrs. Cadd left Huntington Beach some months ago to make her home at Park avenue, Los Angeles, where she died. She was well known here.

Great things are expected of mesothorium, discovered in 1918 by Dr. R. N. Moore of the U. S. Bureau of Mines, and which is now used extensively in the making of mantles for gas-lamps. It is found in the form of monazite ore, in Brazil, and the low cost of its production makes its discovery all the more important. Men of science predict that mesothorium will probably prove a close rival to the rarer and much more expensive radium for certain medical treatments.

A three-year-old boy, who danced on keen-edged sword blades with bare feet, recently appeared before the Prince of Wales in India.

HELD IN THEFT OF WOMAN'S PILLOWS

Admitting, police say, that he stole numerous feather pillows, blankets and comforters from the rooming house at 410½ East Fourth street, where he was employed, Leo M. De Mitta, 29, today was in the county jail charged with burglary.

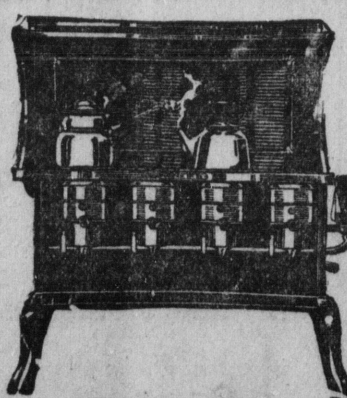

Mrs. A. M. Goetz, who maintains the rooming house, recently reported to the authorities that thirteen feather pillows, five comforters and two blankets had been missed from the rooms.

Yesterday she went to the second-hand store of Aloph Schiff, 510 East Fourth street, where she said she saw a comforter on sale that was stolen from her rooming house.

Investigation by the police resulted in De Mitta's arrest and his subsequent alleged confession.

The Foothill Valencia Growers, Inc., of Orange, now affiliated with the California Fruit Growers' Exchange, and are soliciting citrus acreage until further notice.

Wood-boring insects are said to communicate with one another by means of taps.

S. A. GROCERS TO PARTICIPATE IN CANNED FOODS CAMPAIGN

Makes Possible Display of Canned Goods, Window Cards In Stores

GOVERNOR BACKS DRIVE

Plan to Impress on Public Benefit of Buying Canned Foods Now

National Canned Foods week opened today.

Throughout the nation men, women and children were being interested in canned foods, and in Southern California, where the canning of fruits and vegetables forms a great industry, it was predicted that the movement would prove a marked success.

The week will continue until and including March 8.

Through the co-operation of wholesale grocery houses and other distributors, display matter has been placed in grocery stores in Santa Ana and other cities of the Southland.

Thus, a virtually united display of canned goods, with attractive banners, window cards and other similar material has been made possible.

There is hardly a grocery store in Southern California that is not participating in the big display of canned goods, it was stated.

Governor William D. Stephens has approved of National Canned Foods week, as have numbers of civic bodies in various cities.

Banks and other institutions have been asked to make displays of canned goods during the week, in order further to impress upon the public the advisability of buying canned goods at this time.

"National Canned Foods week is in no sense a local proposition, neither is it confined to the goods of any one country or of any variety of canned food," said one grocer here today.

"Therefore," the grocer continued, "it merits the support of every person in this part of the country from the standpoint of backing a worthwhile movement."

FIND MISSING BOYS

A three-day search for two missing Santa Ana boys, Clyde McWhorter and Harry Stiers, ended at Fullerton when City Marshal Arthur Eells reported to local authorities that he had arrested the youths upon their return from San Diego. The marshal said the boys told him they were en route to Texas. They were returned to their homes in this city.

Stephens Lends Hearty Support to Canned Food Week

Governor William D. Stephens is giving his hearty support to National Canned Food week, March 1 to 8. He says:

"California is intensely interested in this movement, which is national, and every consumer, retail grocer, canner and manufacturer of supplies for the different canneries will be greatly benefited by the great activity in the movement of canned goods that will take place during this week."

"The canned foods of California are shipped at the present time to every remote section of the civilized world, and we, as Californians, should do our share. Every California family, able to do so, should purchase, during the week of March 1 to 8, as much canned food as possible."

SCOUTS PLAN HIKE TO PARK SATURDAY

Marked by the giving of preliminary instructions relative to work that the various groups of boys in the county can do in connection with the Memorial drive project, a big outing is planned at Orange county park next Saturday for Boy Scouts of Orange county districts two and three, it was announced here today.

Participating in the hike will be Boy Scouts from Santa Ana and Orange and all of the territory lying to the south of these two cities, it being these sections that are included in districts two and three.

The hike will be in charge of Victor E. Teaney, assistant county scout executive. Teaney will give the boys tests both in second class and first class scout work. Special assistants will aid him to give examinations in connection with the awarding of merit badges.

R. C. Northcross, custodian of the park, will give the tentative instructions relative to the proposed planting of trees to form the drive with which the scouts will perpetuate the memory of the men who gave their lives in the service during the World War.

CAR THEFT CASE PAIR TO LEAVE FOR PRISON

In custody of Deputy Sheriff Roy Ballard and of another deputy to be detailed by Sheriff C. E. Jackson, B. E. Edwards and George Tiness, whom Superior Judge R. Y. Williams sentenced to terms of from one to ten years in connection with the theft of an automobile belonging to Ralph Cole, were scheduled to leave here late today for San Quentin.

At the time the two prisoners were sentenced they exonerated their alleged companion in the crime, George Stearn, from all blame.

You Will Find It In The Business and Service Guide—Classified Page.

Cutlery sharpened. Hawley's.

INCREASE SCOPE OF COW TESTS. BUREAU AIM

Discontinue Monthly Prizes to Devote More Time to Annual Competition

Not only are cows to receive more attention during the coming year, according to the officials of the dairy department of the Orange county farm bureau, but their calves will also be entered in the annual competition.

Monthly prizes for butterfat production will be discontinued, and more extensive efforts towards the annual competition along that line will be made by Orange county dairy men during the coming year.

This was determined at a recent meeting of the dairy department. In a resolution passed at the meeting, it was declared that cow testing had proved of much benefit during the past year. It was therefore voted to continue the testing, and a committee appointed for that purpose, consisting of H. L. Wakeham, F. D. Plavan and R. D. Flaherty, F. D. Bichan, newly appointed cow tester, will be in active charge of all the work. Assistant Farm Advisor Floyd Scott will assist in a supervisory capacity.

A committee, consisting of J. T. Raitt, A. H. Moore, Michael Babion, and Stephen Grisel, is preparing to conduct a campaign to provide a more appealing list of awards for next year's competition.

Beside the yearly butterfat competition there is to be some special work conducted with reference to calf raising, cow feeding with special rations, dairy farm tours of inspection, and dairy meetings. The extension service of the University of California will assist whenever possible in outlining and conducting the work, Scott stated.

TUSTIN SCHOOL BOARD WILL BUY AUTO BUS

J. W. Means, principal of the Tustin high school, and Charles E. Saurrs, a member of the school board, today had the authority of the board to negotiate the purchase of an automobile for use in transporting pupils on the Irvine ranch to and from school.

The school board has rejected all bids submitted for installation of a heating and ventilating system in the new school building to be erected on Laguna avenue, the contract for which was let last week. Bids were higher than it was estimated the cost should be. The board will again advertise for bids for the work.

Advisability of the purchase of a master electric clock was referred to a committee for decision.

It was expected today the board would meet tomorrow or Friday for further consideration of matters pertaining to the new school building.

Tustin Farm Center Now Actively at Work On Projects for 1922

Committee chairman appointed by Arthur Lindsey, president of the Tustin farm center, have begun active work in connection with a definite plan of 1922 activities outlined at a recent conference with Farm Advisor H. E. Wahlberg.

Harvey Ritner heads the cold storage committee, and W. M. Belding the telephone tolls committee.

Other committee chairmen and the projects to which they will give particular attention are, Dr. G. E. Hatfield, lime for citrus trees; D. Tibbs, cover crop for citrus and walnut trees; C. V. Newman and C. E. Utt, pest control; D. Field, pruning citrus and deciduous trees; William Hatch, poultry club; and Roy Rannels, pig club.

WAHLBERG ARRANGES NEW SCHEDULE FOR MEETING OF CENTERS

Farm centers in Orange county will have a new schedule for their meetings under a plan announced today by Farm Advisor H. E. Wahlberg.

The following centers will meet at 7:30 p. m. under the new schedule:

West Orange, March 2; Tustin, March 3; Fullerton, March 6; Cypress, March 7; La Habra, March 9; Costa Mesa, March 10; Buena Park, March 11; Buena Park, March 13; El Modena, March 13; Yorba Linda, March 14; Anaheim, March 14; Villa Park, March 22; Garden Grove, March 22.

The Capistrano and El Toro centers will meet at 8 p. m. on March 9 and March 11, respectively. The Orange county farm bureau directors will meet at 10 a. m. March 2 and the Beekeepers' Field day has been set for March 11 at the same time.

Wahlberg has announced that he will meet with the citrus project committees during March to assist in establishing fertilizer check plots in these centers that have selected the fertilizer project.

BIG RPOGRAM TO BE MAPPED BY BUREAU HEADS

Matters of vital importance to members of the Orange county farm bureau are scheduled to come up for discussion by the newly-elected directors of the bureau at their first meeting, to be held tomorrow at 1:30 p. m.

Dr. J. R. Schofield, the new president of the organization, will announce the respective committee appointments for 1922 and outline his policy in connection with the work of carrying out the plans of the bureau.

Subjects to be discussed by the twenty-one directors will include the projects of water conservation, public utilities and telephone service. "Among other things," said R. D. Flaherty, secretary-manager, "the directors will discuss the advisability of proper co-operation between the bureau and the various Chambers of Commerce, as well as co-operation with the respective organizations of the townspeople in Orange county. An ambitious program has been suggested for 1922, and the directors on this occasion will make the necessary arrangements looking to the development of these and other plans."

HENS IN COUNTY BEGIN BELATED HATCHING

Cold, Wet Weather Given As Cause for Late Start by Biddies Here

Orange county hens are beginning to hatch their belated broods. Where as normally they should start to set about January 1 and continue through April, poultrymen report that their first hatching has in many instances just been completed. Cold, wet weather are given as reasons for this condition.

J. V. McConnell's birds have changed their raiment five times this winter, he states. Although it is normal for the feathered creatures to moult but once a season, McConnell says that the sudden changes in weather have caused them to start and stop suddenly at least five times.

Baby chicks should bring from twenty cents to \$3 in Orange county poultry breeding markets, according to breeders. One poultryman reported an 80 per cent hatch as a result of the first setting of his hens. Sixty per cent is considered good.

With eggs selling at retail for 25 cents a dozen, or thereabouts, public opinion indicates that the low price is a result of an abundance. This is not true, Orange county poultrymen declare. The cold, wet winter has caused the yield to be slightly less than normal, but market conditions have kept the prices down.

March and April are heavy laying months, so that what eggs are taken off the market for hatching purposes, will be replaced by the surplus produced by the flocks of commercial egg producing poultry ranchers.

Don't feed any more mash at one time than the fowls will eat up perfectly clean. To allow more is not only wasteful but promotes unsanitary conditions.

Generally two-year-old hens and cocks make the best breeders. Or, pullets should be mated to well-seasoned cock birds and young cockerels should be mated to well-matured hens. Always balance youth on the one side with well seasoned stock on the other side.

Don't expect the fowls to find grit for themselves. No matter how much range they may have it is best to keep grit, charcoal, oyster shells, etc., constantly before them.

Don't feed dry grains alone to your hens unless you want them to become too fat, and always make them scratch for all grain feed by throwing it in a deep litter.

In selecting males for breeding, never give the preference to size alone, as size may be due to fat and idleness. It is better to select a male that is active and of medium size. Observation will enable you to make a selection without difficulty, but many persons are so partial to large males that they often sacrifice other interests that would prove more valuable in the end.

Farm chickens often suffer for water, and this is especially true during hot weather. Pure, fresh drinking water is every bit as essential to the health and comfort of poultry as to any other kind of stock on the farm. It is surprising how much water fowls will drink during hot weather. It will pay you to see that they get it and also to keep it clean and pure.

Over-crowding causes many losses and disappointments with poultry. If you have room for only fifty fowls you will make more money from that small flock than from twice as many fowls crowded into the same space. Weed out everything but the best. This policy not only prevents over-crowding, but also raises the excellence of the entire flock.

Milk is usually plentiful on the farm, and the chickens should receive the benefit of this. Give the growing stock a feast of milk every day or two—no matter whether it be sweet, skimmed or sour. It is also good for the old fowls, especially those in molt. But with all kinds of fowls, and especially the growing stock, care should be taken to place not more before them at one time than they will consume in just a few minutes, for otherwise it soon becomes contaminated and unfit for the fowls.

PLAN TO BUILD \$400,000 DAM IS REVIVED

If the property owners under the Serrano Water company system, which supplies an area at Villa Park with gravity water taken from the Santiago creek, can all agree to it, a plan for building a dam at the fourth crossing, in Santiago canyon, may soon be successfully revived and up for consideration, it was learned here today.

At any rate the plan is to be discussed at the annual meeting of the John T. Carpenter Water company at El Modena next Saturday.

Several years ago the Serrano and Carpenter companies, acting with the Irvine company, which owns the dam site, had engineers examine the Santiago and its side canyons. The fourth crossing site was declared feasible for construction of a dam. It was tentatively agreed among representatives of the three interested parties that Irvine should have half of the water, and was to furnish the site and pay half the cost of construction of the works.

The project ran into a snag on account of the fact that the directors of the Serrano Water company cannot legally conclude a contract such as was proposed. Under the ownership rights involved in the Serrano area, no such contract could be entered into unless 100 per cent of the property owners under the Serrano company signed the contract. The Serrano company is not a mutual company of the kind that delegates powers of that sort to the directors. None but the owner of a piece of property under the Serrano system may sign or contract for him so far as water is concerned any more than non can sign for him in making a deed.

It is believed that the property owners of El Modena and Villa Park are ready to proceed with carrying out the original plan. The proposed new dam will cover nearly 450 acres when full. It will cost probably not less than \$400,000.

TRIALS DEFERRED
Two trials of chiropractors, charged with practicing a mode of healing without first securing a state license, were continued today by Superior Judge West to May 15, when J. G. Kelly will be tried, and May 16, when J. A. Hatch will be tried.

CITRUS FRUITS, WALNUTS NET 24 MILLION IN COUNTY FOR 1921

Ship 558 Carloads of Nuts, 13,966 Boxes of Lemons and Oranges In Year

HUGE INCREASE NOTED

Fullerton Leads In Respect to Shipments Followed by Orange, Anaheim

Twenty-four million dollars was the golden harvest reaped by Orange county from walnuts and citrus fruits last year!

Figures made public today after compilation by E. L. Morris, county horticultural commissioner, assisted by M. J. Pickering, show that the value of the 1921 walnut crop was \$4,019,170.04.

According to the same authority, the value of the orange and lemon crop was \$20,164,066.

In the walnut industry, the commissioner's report shows that nine association houses reported 11,267,644 pounds of merchantable nuts, while four independent houses reported 5,478,900 pounds. These amounts show a total of 8378 tons, or 558 carloads.

The actual number of boxes of citrus fruit shipped from Orange county in 1921 was given as follows: Lemons, 828,459; oranges, 4 970,990, making a total of 5,779,449 boxes, or 13,966 carloads.

"The United States census report for 1919 shows that 863,773 boxes of lemons, and 3,468,204 boxes of oranges were shipped," says the report issued by Morris.

"This shows an increase in 1921 of approximately 1,500,000 boxes of oranges, but a decrease of 40,000 boxes in lemon shipments. This decrease in 1921 can be attributed to more added, the conditions might be changed somewhat. Carload shipments of fruits and nuts were:

"Fullerton, 1869; Orange, 1944; Anaheim, 1927; Placentia, 1637; Villa Park, 1417; Santa Ana, 1113; La Habra, 812, and West Anaheim, 740. "The horticultural commissioner's office has been busy for some time securing data for the 1921 crop report. The figures given are a partial report compiled up to the present time. The figures on fruits and vegetables were secured from the Bureau of Markets and Crop Estimates, United States Department of Agriculture, in Los Angeles. "The bureau reports only carload lots. No records are kept of less than carload lots, nor of the tonnage carried by trucks. If it were possible to secure the amount of ton-

It is interesting to note the close competition between some of the shipping points. If the carload shipments of sugar, or other products were added, the results might be changed somewhat. Carload shipments of fruits and nuts were:

"Fullerton, 1869; Orange, 1944; Anaheim, 1927; Placentia, 1637; Villa Park, 1417; Santa Ana, 1113; La Habra, 812, and West Anaheim, 740. "The horticultural commissioner's office has been busy for some time securing data for the 1921 crop report. The figures given are a partial report compiled up to the present time. The figures on fruits and vegetables were secured from the Bureau of Markets and Crop Estimates, United States Department of Agriculture, in Los Angeles. "The bureau reports only carload lots. No records are kept of less than carload lots, nor of the tonnage carried by trucks. If it were possible to secure the amount of ton-

A Mighty Builder—

That fragile piece of paper—The Bank Check

When that fragile thing, the bank check, is viewed as the link that brings together the buyer and seller and sums up all the work between raw material and finished product, banking takes on a new meaning.

When the check or draft becomes the medium uniting the orange or walnut grower, the beet grower, the oil man, with central markets, it is a vital and mighty instrument.

The First National's banking service plays a significant part in the growth of Santa Ana—its checks are given in payment of new homes, its checks help to build new homes, business buildings, factories, and is a moving spirit in the daily commercial life.

Such banking service is a USEFUL SERVICE.

REGISTER WANT ADS BRING BIG RESULTS — COST LITTLE — ACCOMPLISH MUCH

MUST REGISTER BY MARCH 4 TO VOTE

Two dates stand out in the minds of voters in incorporated cities of Orange county just now as of unusual importance. Those dates are March 4 and March 10.

The date, March 4, is of importance for only those who are on this year's great register of the county at that time as registered in Santa Ana and Anaheim can express a choice in the plan of building a joint outfall sewer to the ocean.

Santa Ana votes on the joint sewer project April 4, and also on a number of other items requiring bonds. Anaheim on April 4 votes on bonds for the sewer project.

The date, March 10, is of importance in every city of the sixth class in Orange county. That means every incorporated city except Santa Ana, which is a city of the fifth class.

Only those on this year's great register on March 10 can vote at the sixth class municipal elections on April 10.

Petitions for nomination of city officers in cities of the sixth class must be filed by noon of March 21. Polls for the city elections may be open any eight hours of April 10 designated by the city trustees of a city.

State Farm News

YUBA CITY—The grape growers of Sutter county have scheduled meetings for the purpose of discussing the advisability of a big plant for the stemming, grading and packing of their raisins, to be erected at a central point in the county. Word has come to the growers that the California Raisin associations stands ready to build such a plant, if encouraged by those interested.

DAVIS—A plum variety collection is being set out at the University farm this spring. It will include about 400 varieties, many of them rare species, as well as some new hybrids from Burbank and other experimenters in plant breeding. Among the new varieties will be some of the more recently developed types of French plums, such as the "Double X" and Coats 1418.

LOMPOC—A brand new line of club work will be taken up by the Lompoc farm boys this year—beans. Primarily, the object of the boys is to produce a superior grade of beans for seed purposes. A close check will be kept on the boys and their plots of ground. At least once a month the county farm advisor or somebody equally well informed regarding beans will inspect the plots and give his advice. The bean-raising will take the form of a contest with prizes for the champions.

VINA (Tehama Co.)—Haywood Reed will pack and ship pears from his 320-acre Bartlett pear orchard this year from one of the warehouses on the Stanford ranch, where he has recently completed arrangements for space. The warehouse is adjacent to a railroad spur track, and he will there operate a pre-cooling and packing plant.

PILOT HILL (El Dorado Co.)—The severe cold weather and the continuous rains have been very hard on the cattle on the ranges in El Dorado county this winter. Practically every owner reports some losses and some have lost a high percentage of their herds. Runkei and Mitchell, who have a herd near Pilot Hill, have lost about sixty head out of less than 200.

SAN JACINTO—Beginning the first of next month the dairymen of this section will ship milk to Los Angeles twice daily. At present one shipment of milk a day is made, about 180 10-gallon cans being taken to Los Angeles by truck. By shipping twice daily the milk will reach its destination in better condition.

MARYSVILLE—Six hundred and forty acres of new vineyards will be planted in Yuba county during the spring of 1922. This is according to Horticultural Commissioner George W. Harney. Some of those making extension with their vines are: The Fleming tract, W. T. Ellis, Dobbins tract, S. Ewell, Loma Rica colony and the Wheatland district.

COACHELLA—The Coachella Valley Grapefruit association reports an excellent crop and has already begun shipments. There was practically no frost damage. This industry is rapidly growing in the valley.

WOMAN WRECKS CAR; ROCK HALTS RUNAWAY

ATASCADERO, Feb. 28 — Losing control of the sedan she had just purchased and was learning to drive under the tutelage of A. G. Lundbeck of Paso Robles, Mrs. L. A. Curtis of Atascadero drove over the edge of the road in Cuesta grade. The car rolled 200 feet before lodging against a rock on the mountain side. Mrs. Curtis and Lundbeck are in San Luis sanatorium, suffering from shock, bruises and severe lacerations.

CITRUS FRUITS, WALNUTS NET COUNTY 24 MILLION

(Continued from Page Nine)

age handled in this manner, the totals would be greatly augmented. At some points, for example, the amounts shipped in less than carload lots exceeded the actual carload shipments, to say nothing of the tonnage carried by trucks.

"The tonnage of the walnut crop was obtained by securing reports from packing houses and from the California Walnut Growers' association. The reports were secured in pounds. The tonnage was changed to carloads, on the basis of fifteen tons to a carload. The number of carloads was then added to the carloads of other products at any particular shipping point, and this gave the carload totals at that point."

KOEPSSEL SEEKS POST AS DIST. ATTORNEY

Attorney Arthur E. Koepsel of this city, today announced his candidacy for district attorney of Orange county. He said that he would be a candidate in the primaries to be held in August.

Following his graduation from the law department of the University of Southern California, Koepsel established an office in Santa Ana about twelve years ago. Soon afterward he became a deputy district attorney, which office he held for eight years, taking part in the activities of the office in a manner that brought him into touch with a large number of persons of the county. He attained a reputation as a vigorous and careful prosecutor.

Three years ago he resigned from the position as deputy district attorney and opened an office in the Orange County Title company building, where his office now is.

Koepsel has been active in local politics. He is chairman of the Republican county central committee.

GRAPE GROWERS SEEK AID
COACHELLA, Feb. 28—The earliest grapes produced in the country are grown in the Coachella and Imperial valleys and the Palo Verde valley will soon be a large producer of grapes. The ranchers of these three sections feel the need of more expert advice and that need is voiced in the Coachella Submarine, which says: "No other agricultural pursuit is making more rapid strides than the grape industry. This is particularly true in the three interior valleys of Coachella, Palo Verde and Imperial."

The Cudahy interests alone have received two cavaldos of 700,000 cuttings each for their plantings east of Imperial this season. Palo Verde is setting out from 500 to 1000 acres and Coachella valley is increasing its already large plantings by about 250 acres.

PUBLIC TO SEE WIRE PLANT IN ACTION

(Special To The Register)

ORANGE, March 1—The plant of the California Wire company, a concern which is doing a business of \$500,000 annually, will be thrown open to the public one day within the near future, according to an announcement today by F. H. Alden, general sales manager.

The company, which manufactures insulated wire on a large scale, began active operations in this city about two months ago. Alden said it was the desire of company officials to give the public an opportunity to view the plant while in operation.

For this purpose, he said, a special day will be set aside and all those who desire will be welcome to watch the company's employees at work.

There are thirty men and women employed at present, Alden said, and the plant is running at capacity. Lights and power companies on the Pacific coast have been very liberal in their patronage of the new firm.

"We are making weatherproof wire in Orange," said Alden, "and we manufacture all sizes up to cables 1,000,000 C. M. Our shipping facilities are the Santa Fe, Southern Pacific, Pacific Electric and water shipments from Los Angeles harbor. This is one more step toward making the Pacific coast independent of other sections of the country."

Louis Koth, president of the company and the man responsible for many of the company's devices, stands unique among the executives of Pacific coast business firms. Alden said the president's life is insured by the company for \$50,000.

BADNBOX PLAYERS WILL APPEAR HERE

Santa Anans will have an opportunity to hear Broadway artists of renowned present three one-act dramas on the high school auditorium stage next Friday evening when the Bandbox players, presented by Harry H. Hall, appear under the auspices of the student body of the high school.

The Bandbox players are a company of actors from New York and London. Included in the cast are Naomi Bailey, Florence McAfee, Frank Crayne, Wheeler Dryden, Frances Pemberton, Art Dennis and Betty Hall. Many of these names are well known to theater-goers, and it is expected that the presentation of the plays will attract a large number of Santa Anans.

On Thursday afternoon the company will present "Food," "Q," "Lonesomelike" for teachers and pupils only. The following evening "Dregs," "Dawn" and "The Darkest Hour" will be presented before the public.

Miss Bailey, who plays the leads in the playlets, is well known as a result of her experience with such companies as the Theater Workshop, and the Little Theater of New York.

Frank Crayne is best remembered for his work when he played opposite May Allison, and later with Billie Burke.

Wheeler Dryden began his stage career under the tutelage of his father, Leo Dryden, an English actor. He has toured India, Burma, Japan and China, and has appeared in motion pictures with Constance Binney. Dryden recently completed an engagement at the Thirty-ninth street theater in New York, where he supported Francis Larrimore in "Scandal."

The high school organization is able to secure the Hall company because of the fact that influenza has caused many contracts in larger cities to be cancelled. It was stated.

VALUE OF ANIMALS ON FARMS DOUBLES

WASHINGTON, March 1—An increase of over 100 per cent in the value of domestic animals sold and slaughtered on California farms in 1919, as compared with 1909, is reported by the bureau of the census, based on the census of last year.

The figures for 1919 are only estimated, however, while those for the former period were reported. The inquiry covering this item was omitted from the 1920 farm schedule. The number of cattle, sheep, and swine slaughtered on farms in 1919 were reported, and these figures have been used as a basis for estimating the value of these animals.

The census bureau states that "the values thus obtained, together with the estimated value of domestic animals sold by farmers in 1919, make up the total presented in the table." It is asserted that there may be some duplication in the figures, because animals frequently are sold by one farmer to another, and again resold during the same year.

The value of these animals in California in 1919 is estimated at \$67,520,004, while the values reported in 1909 were \$33,627,120. This shows an increase in 1919 of \$33,892,884, or 100.8 per cent.

\$60,000 SCHOOL IS PROPOSED FOR ORANGE

(Special To The Register)

ORANGE, March 1—As the result of a meeting of qualified voters of the Orange school district, held at the intermediate school last night, a new grammar school was in prospect for this city at an estimated cost of \$60,000. W. D. Granger, president of the school board, presided.

Fifty or more of those in attendance urged the necessity for a new school building, pointing out that steadily increasing attendance makes the new school an absolute necessity. The Orange school district at present embraces the three grade schools in this city. These are the Intermediate, the Center street school and the Lemon street school. Resolutions passed by the meeting authorized the school board to acquire a site, preferably at the corner of Cambridge and Palm streets, and call for a bond issue of about \$60,000 to purchase the necessary land and erect a four-room school building. The board will meet at a later date to decide what action shall be taken.

THE "FLOWER SHOP" ADDS MATERIALLY TO ITS ATTRACTIVENESS

H. W. Turner of the Flower Shop, on North Main street still "says it with flowers," but also now with music. He is justly proud of a recent addition to the attractiveness of his place of business—a beautiful Brunswick "Lombardi" phonograph, of the Italian Renaissance period, which was recently purchased from the J. C. Horton Furniture company. Its mechanical perfection and beautiful antique exterior is a wonderful example of modern craft.

Mr. Turner has been in the arts and crafts business for over thirty-five years and is considered one of the greatest authorities on the subject in California. In referring to the Brunswick Lombardi yesterday he expressed himself as being more than ordinarily fascinated by the accuracy with which the period design has been followed out and worked into an instrument that is ultra modern in every other way.

According to Mr. Turner, the genuine gold cloth facing the tone arm, the antique ornaments, the Greek frieze and the carving of the solid walnut are faithful reproductions of the popular artistry of the Renaissance period. Mr. Turner remarked that the Lombardi influence which gave it its name is plainly traceable in the cabinet carving.

In the actual phonograph compartment there is a cleverly placed electric globe which gives plenty of light for the changing of records or needles. The machine is electrically operated by a motor running in oil which renders it absolutely silent. In the record compartment there is ample space for a great number of records. An artist who loves beauty can find no flaw in such an instrument; possessing as it does the famous Brunswick tone and such exterior grace.

Mr. Turner has such pride in his acquisition that he has given it a prominent position in his store. He laughed when asked why he had given it such a space, and said, "It gives the proper 'tone' to the shop."

There is nothing in the world quite so nourishing or helpful as

Scott's Emulsion

for thin, anemic girls of "teen-age." It is well-worth trying.

Scott & Bowne, Bloomfield, N. J.

CASCARETS 10¢

For Constipated Bowels, Sick Headache, Sour Stomach, Bilious Liver

The nicest cathartic-laxative in the world to physic your liver and bowels when you have Dizzy Headache, Colds, Biliousness, Indigestion, or Upset, Acid Stomach, is candy-like "Cascarets." One or two tonight will empty your bowels completely by morning, and you will feel splendid. "They work while you sleep." Cascarets never stir you up or gripe like Salts, Pills, Calomel or Oil and they cost only ten cents a box. Children love Cascarets too.—Adv.

APPEARANCES OFTEN DECEIVE!

How often you see a fair maid, doted up gay, and looking her over you're inclined to say—"Gee Whiz! She's a peach, if there ever was one." Then she starts in to talk, and you turn 'round and run.

We drive up North Main, Mellottus we see. "One grove looks as good as another to me." But you get your good spade and from each dig a bunch; compare five best plants. That will give you a hunch.

AT CHINO you'll note, on Riverside Drive; how old TREATED ALFALFA is inclined to thrive. TEN TONS to the acre, a yield of some class; while the strip left untreated has all "GONE TO GRASS." The owner, Dr. Molyneux, will be much pleased THE TRUTH to show.

C. LINCOLN BENNETT, Bacteria Merchant, 507 W. 5th. Tel. 1282-R

NEW SPRING HOSE STYLES

New Spring Hose is now presented at The Ann Shoppe. You can always keep in touch with styles in Hose, neckwear, handkerchiefs, etc., by visiting The Ann Shoppe frequently. You will be welcome any time.

BRIDGFORD HEIFER MAKES NEW RECORD

PATTERSON, Feb. 28 — Another
show bull of the undefeated Holstein
cow bull of the Bridgford Holstein
family has made a world record.
Louise Alcahna Prilly, at three
years and five months, has completed
a record of 40,197 pounds of butter
from 590.0 pounds of milk in seven

She made this record beginning sixty days after completing her yearly two-year-old record of 23,150 pounds of milk and 865 pounds of

utter, being dry only two weeks before calving. This gives the Prilly bull two world's record daughters and seven state records, all made since January 1, 1922. His four oldest daughters to freshen, only three-year-olds average 31.7 pounds of butter in seven days, two of them milking over 60 pounds per day.

Scene: Police Court. Sharp-tongued, red-faced lawyer cross-examines a witness as to his sobriety.

Lawyer—You were seen entering the Spread Eagle directly the doors were opened, or soon afterwards?

Witness—Yes, but not to drink.

Lawyer—What object had you in view, then?

Witness—The only object I had in view in going in, sir, was yourself coming out.—*London Weekly Telegraph.*

EDITORIAL FEATURES

EVENING SALUTATION

With malice toward none; with charity for all; with firmness in the right as God gives us to see the right, let us strive, strive on to finish the work we are in.—Abraham Lincoln

ON THE ROTARY MAP

Santa Ana and Orange are very plainly marked on the map of International Rotary, and congratulations have been showered upon the Rotary clubs of the two cities for the very effective manner in which they have brought their cities to the attention of the 80,000 Rotarians in the 1150 Rotary clubs in twenty-two countries of the world.

Throughout the world there is keen competition among Rotary clubs for recognition in attendance. The Rotary Magazine and Rotary bulletins carry attendance percentage columns. Since its organization two years ago, Santa Ana Rotary has frequently held a place among the first ten Rotary clubs of the world, but it remained for the club during December, January and February to set a new world's record for attendance among clubs having a membership of between fifty and 100 members. For eleven consecutive meetings, every member of Santa Ana club attended every meeting of the club or attended the meeting of some other Rotary club. The previous world's record was held by Long Beach.

Nothing but the severe illness of a member of the local club that prevented him from attending a meeting brought the wonderful run of 100 per cent meetings of the club to a close.

Orange Rotary, one of the youngest of the clubs, has started out in record style. It is in what is known as D class, in which class all clubs with a membership of less than fifty are placed.

Orange completed its tenth consecutive 100 per cent meeting when, last week, the illness of a member made the eleventh 100 per cent meeting impossible.

Attendance in itself counts for little unless it carries with it among the members an enthusiasm and faith in the work that the clubs do, and that the three clubs in this county are imbued with the enthusiasm and faith that makes for achievement in Rotary cannot be questioned.

Rotary's ambition as expressed through its clubs and membership everywhere is to be of service. Among its mottoes is this: "Service above self." Another is: "He profits most who serves best."

And in promulgating the spirit of Rotary, the three clubs in this county, Santa Ana, Anaheim and Orange, are doing distinctive service for their communities and for the county as a whole.

YOUR PEAK LOAD PROBLEM

The brick mason works about two hundred days of the year, but his family eats 365 days. The stationary fireman draws pay for every working day in the year. The school teacher is profitably employed eight or nine months of the year but living expenses continue for the other three or four months.

Idle horses, machinery and farm land investment must be ready for the farmer's "peak load."

The "peak load" for the gas company comes for an hour at each meal time, but the investment in equipment and man power must be maintained for the other twenty-one hours. The "peak load" for the electric light company comes in the early evening, when in three hours more current is often demanded than during the remaining twenty-one hours of the day, but the plant must be ready to serve when the public demands, Sundays included, regardless of the capital investment that remains while the equipment is loafing. Street car service is exacted "in chunks" but the transportation company must furnish it because it is a public service corporation, with an eye single to the needs of the community and the demand of patrons.

Brick laying and telephone service cannot be done at odd spells against a busy season; street car travel, does not yield to cold storage.

The "peak load" is the great big problem of every utility manager.

If the demand were comparatively constant for gas, electric, telephone or carrying service throughout the year, rates could be reduced tremendously to the mutual satisfaction and profit of operators and customers.

Thus the peak load problem is one that comes close to all of us in some form or another.

WHY NOT BE HONEST ABOUT IT?

American producers of Cuban sugar are flooding the country with propaganda to show that a slight tariff on foreign produced sugar to enable American beet sugar industry to compete with the cheap-foreign-labor-produced commodity is a bad thing for the American people.

All that our own sugar producers ask is a duty of 1.6 cents per pound, the lowest sugar duty imposed by any country. This is necessary to enable them to pay American wages.

Advocates of "free" sugar should have the honesty to say they favor cheap labor and are willing to see American produced sugar eliminated from the market.

The slight tariff asked is to protect American investors and American farmers who are developing our own country and maintaining our own payroll.

If Americans wish to go to a foreign country and invest their money on a chance of making large profits through cheap labor they have a perfect right to do so but they have no reasonable grounds for asking that they be allowed to compete on an unequal basis with the man who stays at home, maintains the payroll, pays the local, state and national taxes and makes it possible for our country to prosper.

DEMOCRACY IN EGYPT

Great Britain, having got pretty well along with setting up self-government in Ireland, is proceeding to do the same thing in Egypt. Circumstances are very different, but the underlying idea is the same.

The Egyptians are to have as much autonomy as Britain feels will not endanger the British Empire. The safety of the Suez Canal is to be assured, keeping open the British route to India and Australia. Britain, too, wants to apply a sort of Monroe Doctrine to Egypt, safeguarding certain British interests and making sure that no other power will butt in.

The plan is nowhere near complete independence, but it represents a larger measure of freedom for Egypt than that country has enjoyed for perhaps 3,000 years. And Egypt is getting that freedom, as Ireland is, because she demands it and fights for it. Before long India may gain similar concessions.

The only imaginable way for Great Britain or any other power to "govern" subject aliens after the old fashion is by force, and somehow force no longer works as it used to. Something has happened in the world. There is a new spirit abroad, which is the most vital fact now evidencing itself in the world. It is the spirit of democracy, and it is a direct outcome of the World War. It was a "war of democracy" after all, and it succeeded, no matter what the cynics may say.

THE FARM FINANCIERS

A general note of optimism is noticeable in most financial and business reports. Conspicuous among these is better news of conditions on the farm the country over. The farmers back East are coming up out of the dumps along with the rest of business, and even a little ahead of some of it. Large repayments on loans are one of the best evidences that things are picking up with the farmer.

Eugene Meyer, jr., head of the War Finance corporation, reports that payments from Jan. 1 to Feb. 15 on live stock and agricultural loans aggregate \$3,671,000. Of this amount \$2,887,000 was paid by banking concerns, \$347,000 by live stock loan companies and \$446,000 by co-operative associations. All repayments were voluntary, and a considerable part of the total was paid before due.

Back of these larger sums is an equally cheering record of individual payments, "made voluntarily, and before due." The situation not only is cheering as indicative of better times on the farm, but it is one more evidence of the integrity and dependability of the American farmer, who works in the sweat of his brow to pay his debts like an honest man.

Among other false prophets, remember the people who said last spring that gasoline would be 50 cents a gallon this winter?

Now Philadelphia's trying to steal Herbert Hoover. No sooner does a good man get settled in a public life than somebody comes along and offers him \$150,000 a year.

Albert Beveridge, running for the Senate again in Indiana, is rid of one handicap. Nobody can introduce him as "boy orator" any more.

View Is Not Justified

Riverside Press

Chief Justice Lucian Shaw has announced that he will not be a candidate for re-election; and in view of his advanced age—he will be 78 years old when his present term expires next January—that decision is not strange. The term of justice of the supreme court in California is twelve years; and were Justice Shaw to run again and be elected, he would be 90 years old at the end of his term.

Justice Shaw, however, goes out of his way to criticize the direct primary law by stating that his reason for not being a candidate is the expense and strain of a primary campaign. He intimates that if the old convention system were still in force, he would most likely seek a party nomination.

To make use of a legal term, Justice Shaw's demerit is overruled. Other judges have not found that the direct primary imposes any unusual burdens in the matter of expense or time spent in a campaign. No better illustration of this fact could be cited than Judge Curtis D. Wilbur, who will most likely succeed Judge Shaw or Judge W. A. Sloane of San Diego, both of whom were elected to the supreme court in recent years after campaigns that were neither burdensome nor costly.

Under the old convention system as it operated in California, the judgeships were peddled out by a political boss representing a great public service corporation in exchange for votes from various county delegations for governor. Judicial aspirants were forced to go and seek the favor of this boss in private interviews and agree to "come across" with the votes of the delegations from the counties specially interested in their candidacy. Could anything be more humiliating or more contrary to the ideals of a free and independent judiciary than that system? Judges and would-be judges in general rejoice that those days are passed, and they welcome the opportunity to place their claims before the people in a dignified, independent manner. One of the reforms put on the statute books by Governor Johnson in addition to the direct primary was the non-partisan law for judges. Now all judicial positions are filled without regard to party; and that makes for independence and efficiency.

Judge Shaw's implied attack on the direct primary has been made the occasion of a new outburst by the re-actionaries against the primary system and all forms of direct legislation. Solemn editorials on the subject have appeared in several re-actionary papers and the Better America Federation has a speaker going about telling people that the initiative, referendum, recall and direct primary are all "bunk."

Such talk however, is rather harmless for the direct primary, direct legislation and the recall have come to stay; and if their critics have any doubt on that point, let them propose amendments for their repeal and put them on the ballot next fall. They will learn a few things, when the votes are counted.

Standing In Line

Stockton Record

Next to waiting in a doctor's office, there is nothing as monotonous and irritating as waiting for a delayed train or standing in line to buy tickets.

No matter whether a person's time is worth \$1 a minute or nothing at all, there's something psychological about compulsory delay that "gets under the hide."

Probably it's because, having made our plans in advance, we want to do everything exactly as scheduled in our brains. You rush to make a train. It's an hour late. You have to wait. The suspense and monotony seem like ages.

Or you agree to meet some one at a certain corner or the door of a store "at noon sharp." The contracting party is 15 minutes late. By the time he or she arrives, you're so irritated that your digestion even is suffering, causing a dry, tasteless feeling in the mouth and a jumpy tendency of the nerves.

If thoughts were bullets, the party who holds up a theater line while he haggles over what ticket to buy would be as full of holes as a sieve.

We Americans are the fastest moving, most hurried people in the world. We save by our rush is used up in the delay, waiting because some one or some thing is not punctual, and which generally could be avoided.

For one thing, there never are enough ticket sellers.

The combined cost of this delay runs into staggering figures.

If you want a short-cut to success, be punctual. That in itself may not hasten the attainment of everything you want. But it helps mightily. The punctual man gains a great asset—the good-will of his fellows. He appeals to human nature at one of the roots of psychology—dread of delay.

Delay always sows against the grain.

The paper money issue in soviet Russia has reached 11 trillion rubles. Russia's greatest economic need seems to be a pressman's strike.—Kansas City Star.

Someone is Going to Be Late

Today's Talk

by George Matthew Adams

WARMTH!

The very word warmth—warms one! The warm day, the warm room, the warm cloak, the warm heart.

I have just finished a book, and it was so wonderfully written, so filled with noble thinking, so artistic in its technique, that I feel warm and happy for having read it.

How many people there are who warm you—the very minute you approach them. Because they have warm hearts.

I called upon a gentleman (I use the word advisedly) the other day. He lived in a warm climate and the sun streamed into his office. But I think he carried ice in his pockets for he froze me the minute I approached him. And I left his office hoping never to return!

There are those, however, who always warm my whole life whenever I come in contact with them.

A letter came to me the other day from a stranger who said he was 37 years old, and who rather apologized for sending me a word of cheer. But he warmed the very minutes consumed in reading his gracious letter, and he has warmed my heart through every day since.

We little realize what a small amount of warmth means when sent out from us to someone else.

The fineness of Lincoln's face, I believe, is the warmth that is there. Everyone who ever approached him testifies to the simple sweetness of the character back of his face. He couldn't shoot boys for falling asleep at duty, because he knew that they were merely boys—tired from the long days of watching and tramping.

I know when I come into a warm home. And I know when I meet a warm, radiant life.

The sun always gives out warmth. And it distributes throughout the world great blessings because of what it has to give. It's only when the clouds appear that dark days come. The sun keeps shining just the same—behind.

That is the sort of heart we should each one have—one that will keep warm behind the difficulties and troubles of life.

Hearts that will keep drawing everyone in the world nearer us!

Worth While Verses

THE RANCH IN THE COULEE

He built the ranch house down a little draw,
So that he should have wood and water near,
The bluffs rose all around. She never saw
The arching sky, the mountains rising clear;
But to the west the close hills fell away
And she could glimpse a few feet of the road.
The stage to Rancher went by every day,
Sometimes a roundup town-bound with his load,
An auto swirling dusty through the heat,
Or children trudging home on tired feet.

At first she watched it as she did her work;
A horseman pounding by gave her a thrill;
But then within her brain began to lurk
The fear that if she lingered from the sill
Someone might pass unseen. So she began
To keep the highroad always within sight,
And when she found it empty long she ran
And beat upon the pane and cried with fright.
The winter was the worst. When snow would fall
He found it hard to quiet her at all.

(By Gwendolen Haste in The Nation. This verse won one-half the recent poetry prizes offered by this magazine.)

Today in History

March 1
1780—First bank in U. S. chartered.
1827—William Dean Howells, author and poet, born.
1867—Nebraska admitted to the Union.

Pointed Paragraphs

On mischief bent—the crook.
This world has no love for the lover who loves only himself.
Spinstership is often the flirt's punishment for contempt of court.
If straightened out, an ounce of spider's web would extend 260 miles.

Income Tax Facts

Bulletin of Bureau of Internal Revenue
(In Fifteen Articles)

NO. 14.—INCOME-TAX FACTS

The revenue act of 1921 authorizes the Commissioner of Internal Revenue and his assistants whose duty it is to see that the law is properly complied with to examine all books, papers, and memoranda bearing upon an income-tax return, and to examine under oath persons having information in the premises. A new provision of law is that no taxpayer shall be subject to unnecessary examinations, and only one inspection of the taxpayer's books of accounts shall be made for each taxable year unless the taxpayer requests otherwise, or unless the commissioner, after investigation, notifies the taxpayer in writing that an additional inspection is necessary. The act provides that in the absence of fraud, or miscalculation, the decision of the commissioner upon any claim presented under or authorized by internal-revenue laws shall not be subject to review by any other administrative officer, employee, or agent of the United States.

Written Agreements Binding
Except upon a showing of fraud or malfeasance, an agreement in writing between the taxpayer and the commissioner as to the amount of taxes due is final and conclusive, and therefore binding upon both parties. The act provides that no suit or proceeding for the recovery of any tax or penalty alleged to have been erroneously or illegally assessed or collected shall be begun before six months from the date of filing (unless the commissioner renders a decision thereon

within that time) nor after the expiration of five years from the date of payment of such tax or penalty. It is provided also that the amount of income, excess profits, and war profits taxes due for the year 1921 and succeeding years shall be determined and assessed by the commissioner within four years after the return was filed, and the amounts due for prior years within five years after the return was filed unless the commissioner and the taxpayer consent in writing to a later determination, assessment and collection. Except in the case of a false or fraudulent return or failure to file a required return no suit or proceeding for the collection of such taxes shall be entered after the expiration of five years from the date the return was filed or became due. This provision does not affect proceedings begun at the time of the passage of the revenue act of 1921, November 23, 1921.

The act provides that under certain conditions interest at the rate of one half per cent a month shall be paid upon claims for abatement and refund of taxes erroneously collected from the date of payment of the tax to the date of allowance of the claim. Taxpayers are no longer invited to submit such claim, but upon audit of the return they will receive a certificate of overassessment and a check in correction of the error, or if an assessment is outstanding against the taxpayer for income or excess profits taxes, the overpayment is applied as a credit and the balance immediately refunded.

In the Long Ago

From the Register Files
March 1, 1908.

A Newport Harbor association to boost for the harbor was organized by the election of Clyde Bishop, president; Lew H. Wallace, Newport Beach, W. W. Wilson, Riverside, and Lyman M. King, Redlands, vice-presidents; Raymond Wayman, secretary.

Pop started to smooch and look comfortable after supper, and ma sed, O Willyum, theres a buttin off your coat.

Yes, its the same buttin you sewed on a short time ago, sed pop, and ma sed, Short time nothing, that must of bin at least 3 months ago. If I was an ambitious buttin I wouldnt feel very proud at not being able to hold a position longer than 3 months, sed pop, and ma sed, If you were a buttin you wouldnt stay on 5 minits, youre so fidgety hand me your coat and Ill sew it on agen.

Ill sew it on myself, I want to be sure its on to stay this time, the best tailors in the world are men, just as the best cooks are men, and the best everything, wares a needle and thred sed pop.

Heers a needle and heers a thred, now do your worst, my goodness sutch conceit sed ma, and pop sed, If you dont know conceit from confident modesty youve lived with me all these years in vane. And he started to thred the needle with one eye closed and after about 10 no good pokes he closed his other eye and poked some more, ma saying, My goodness, Willyum, youre supposed to thred the needle with the thred, not thred the thred with the thred.

Whos doing this? sed pop.

Nobody, so far, hee hee, sed ma, and I sed, Wy dont you try it with both eyes open, maybe you can see better that way, pop.

Did anybody ask you for your advice? sed pop, and he started to make fierce faces and move the thred and the needle both at the same time as if he thawt he was juggling them and then he threw them both down on the table saing, O of course, if you deliriously hand me a thred thats too big for the eye of the needle, thats no thred, thats a cord, thats a rope.

Hee hee, let me have it, sed ma. And she picked up the needle and thred and gave one easy poke with the thred and it went throo.

Some people are born lucky, sed pop. And he gave ma his coat and she sewed the buttin on.

Humane Swiss

When the swallows fly south from England to sunny Africa they often find the cold winds troublesome, and perch by thousands on the trees and telegraph wires on the Swiss side of the Alps, resting before they attempt the first over the snowy passes into Italy. If the winds are very cold the unhappy birds become numbed, and fall from their resting places to the ground, where they would ordinarily die of exposure. But the Swiss boys and girls love the birds, and come to their rescue.

They pick them up, put them in warm baskets, and take them to the railway station, where they hand them to the guards of the trains about to go through the great Simplon tunnel. The baskets are packed carefully into the guard's vans, and when the train emerges on the sunny Italian side, he opens the lids and sets the birds free to continue their migration in a more congenial climate. When the train returns into Switzerland the children collect their baskets to use for other distressed birds.

Odd and Interesting

The Suez canal, which at first looked very much like proving a failure, has developed into one of the most successful commercial undertakings in the world. Despite an initial cost of eighty-five million dollars, the stockholders receive regular dividends averaging twenty-five per cent.
